RECRUITING

Of Ohio National Guard Up to Maximum Strength Goes On

PREPARATORY TO MOBILIZATION

Camp Willis Being Rapidly Put Into Shape

GOVERNOR ISSUES A CALL

For Volunteers to Fill Up Ranks of National Guard—Negro Troops in Columbus Aid in Fixing Up Camp Site—Railroads Are Preparing to Handle Immense Crowds of Visitors.

(ASSOCIATED PRESS TELEGRAM) Columbus, June 21.—A call for volunteers for the Ohio national guard was sent out broadcast over the state today by Adjutant General Benson W. Hough. Enlistments, which were so promising the first of the week, have taken a slump, it was said.

Following is the text of the call, as sent out from the governor's office: "The call to arms has been sounded. Men are needed in the service of their country. Ohio is the home of patriots. Her battle flags always have been in the van. Let Ohioans not falter now. Buckeye traditions must be preserved. Enlistments are needed to fill up every Ohio organization to its war strength."

"Don't be a slacker; your state and your country need you," is the patriotic slogan to be sounded everywhere in the state through chambers of commerce and military organizations. Adjutant General Hough today requested the Columbus chamber of commerce, through its military committee, to get in touch with every chamber in the state and urge aid in inducing men to enlist. Immediate action was taken by the Columbus chamber of commerce.

Business men and industrial concerns are urged by Adjutant General Hough to unite in the movement to get men to enable the Ohio regiments to recruit up to the strength required without delay. Many employers already have announced that they will allow their men to enter the guard without loss of pay or position.

The call made by Adjutant General Hough was approved by Governor Willis. The suggestion has been made that the Republican state convention, which opens here this afternoon, endorse the call and an expression is looked for from the delegates. The governor and adjutant general have requested newspapers over the state to aid in the movement.

Officers and men of the Ohio national guard today began to sense the monotony of awaiting orders to entrain for the Ohio mobilization camp near Columbus. It was the (Continued on Page 2, Col. 3.)

Eagles Will Elect Officers and Select Next Convention City at the Session Today

All of the delegates, numbering over four hundred, are now in the city for the state convention of the Eagles, the sessions being held in the High school building.

The rain this morning put a damper on the enthusiasm of the visitors as well as the local committee.

HON. R. M. KNEPPER OF TIFIN
Newly elected President of the State Aerie of Eagles.

tee but it may clear up during the day and in that case the regular Wednesday program will be carried out. This morning's session was called to order by State President E. L. Myerson and the report of the

TEXAS NATIONAL GUARD IS MOBILIZED AT BORDER, READY FOR INSTANT ACTION

Company E of Austin, Texas, 2nd infantry, photographed at the Mexican border.

The national guardsmen of Texas have been guarding the border since practically the entire force of regulars were called into Mexico. If the militia is sent into Mexico, these men probably will be the first guardsmen to cross the border. They are in readiness for instant action and are thankful that they will be given an opportunity to have the adventure of war rather than the tiresome work of patrolling the border.

European Powers Are Bringing Pressure to Bear Upon Carranza to Prevent Him From Forcing Break With United States

(ASSOCIATED PRESS TELEGRAM) Washington, June 21.—Strong pressure is being brought to bear upon General Carranza by representatives of European powers to prevent him from forcing a break with the United States. Indirect reports reaching the state department today told of these efforts and said there was a possibility they would be successful.

Agencies of the entente allies are understood to be active for peace, particularly because they believe German influence has sought to inflame the Mexican government against the United States with a view to preventing this country from gathering in trade formerly controlled by Germany in Mexico, south and Central America. It is pointed out that Carranza might avoid war by calling for an international commission to discuss the border situation as provided in the treaty of 1848. So far, however, no suggestion for such a step has come from Mexico.

A definite statement has been received that Gen. Carranza is doing all in his power at this time to protect Americans in Mexico from an attack by the populace. He is said to have given Special Agent Rodgers in Mexico City all the aid in his power in arranging for trains to carry American refugees from the interior to Vera Cruz. In some quarters here this was construed as evidence that he is not bent upon provoking hostilities.

The state department had no advice bearing on these hopeful indications except that from Special Agent Rodgers announcing the progress of his efforts to get American citizens out. With the full consent of the Carranza authorities he said and the promise of adequate protection from possible bandit attacks, he had arranged for a special train to leave Mexico City tomorrow carrying Americans to Vera Cruz.

Mr. Rodgers added that he and his diplomatic associates in the Mex-

ican capital had been given every assurance of safe conduct and protection on their trip to the coast if it became necessary for them to leave. The corps of American newspaper correspondents there has decided to remain with Mr. Rodgers until such time as he may find it necessary to leave.

Marching orders for national guard organizations summoned to the colors under President Wilson's call are still held up at the war department pending completion of the mobilization of the troops at state camps. Just as soon as a sufficient number of the guardsmen have been mustered into the federal service, the war department will act on General Funston's report of yesterday stating the number of units he desired and to what points he desired them forwarded.

Only preliminary reports on the progress of the mobilization in various states had reached the war department today. These were viewed as satisfactory.

Secretary Baker said the suggestion that the senior class at West-point military academy be graduated immediately for active service was under consideration but no information had been received. The cadets have completed three-years of their work and could be commissioned as second lieutenants immediately if the emergency warrants such steps.

The department had no additional advice from General Funston regarding the movements of Carranza troops near the border or in the vicinity of General Pershing's column in Mexico.

The United States today anxiously awaited word from Mexico City regarding General Carranza's attitude toward the American note sent him yesterday, for on him depends the question of war between the two republics.

High officials here admitted privately they look for war, although care was taken to avoid any formal expressions or acts which might appear forerunners of a declaration of war.

The only answer required from General Carranza is action suppressing outlaw treatment of Americans, and officials feared against hope that this would not be done.

Military authorities were looking

for the de facto government's attitude in Mexico threatening troop movements near the border today, and in preparation for these the war department was getting ready to act on General Funston's request for immediate dispatch of a number of national guard units to the border. It was said Secretary Baker and President Wilson probably would determine what organizations should be sent.

Great interest was expressed in the probable course to be followed in case Mexicans attack the American column. It was regarded as probable that a general rapid advance would be ordered from the border to a line perhaps one hundred or more south of the border. This line then would be fortified and held until volunteer reinforcements become available. This fighting would be thrown into the enemy's territory and the border protected against further bandit attacks by thorough policing of the country behind the main line.

A special train bearing several hundred American refugees from Mexico City to Vera Cruz was to leave Mexico City today, according to word from Special Agent Rodgers at the Mexican capital.

Chief Bielaski of the department of justice's bureau of investigation today telegraphed his El Paso agent to drop charges against Frederick Griese, a German banker of Mexico City, detained here yesterday for alleged attempts to violate American neutrality. Investigation convinced officials here there had been no violations.

YAQUI INDIANS TO REINFORCE CARRANZA.
(ASSOCIATED PRESS TELEGRAM) Eagle Pass, June 21.—General Murguia, a Carranza commander arrived at Piedras Negras, the Mexican town opposite here with a detachment of 2,000 Yaquis, reinforcing the garrison there. A large part of the civilian population of Piedras Negras has already moved south.

17,000,000 ROUNDS OF AMMUNITION ARE TAKEN BY CARRANZA.
(ASSOCIATED PRESS TELEGRAM) Laredo, Texas, June 21.—Approximately 17,000,000 rounds of am-

munition has been taken in charge by Carranza authorities throughout Mexico and the government factory is working 24 hours daily to augment this supply, according to an American refugee from Mexico City arriving here today. The output of the government factory is approximately 30,000 rounds of cartridges daily he said.

MEXICANS LINE UP WITH GOVERNMENT.
(ASSOCIATED PRESS TELEGRAM) Chihuahua, Mexico, June 19, via El Paso Junction, June 21.—The aligning of the various factional leaders with the government continued. General Nafarette wired General Trevino that General Manuel Palaez, a former Villa general now operating in the Huastecas region had placed himself at the disposal of General Carranza. Jose Ysabel Robles and Canuto Reyes with their forces are expected in Chihuahua shortly under orders from General Trevino.

MEXICAN TOWN IS DESERTED OF ITS CIVIL POPULATION.
(ASSOCIATED PRESS TELEGRAM) Douglas, Ariz., June 21.—Agua Prieta, the Mexican town opposite this city, was practically deserted today of its civil population. A handful of soldiers, the staff and guard of General P. Elias Calles, military commander of Sonora and the customs officers remained.

Fifteen hundred residents, mostly women and children departed during the night for the south. They were loaded into cars of every description, the women and children huddling on the flooring, among their meagre belongings.

LAST CONSUL TO LEAVE MEXICO IS MR. J. R. SILLIMAN
(ASSOCIATED PRESS TELEGRAM) Eagle Pass, Tex., June 21.—Consul J. R. Silliman arrived in this city early today from Saltillo, coming by way of Monclova, owing to the cessation of railroad traffic between Monterrey and Nuevo Laredo. He expects to remain here for several days. Mr. Silliman is the last American consul to leave Mexico.

"WAR WEDDINGS" NUMEROUS AMONG OHIO'S SOLDIERY
(ASSOCIATED PRESS TELEGRAM) Columbus, June 21.—Hymen and Mars are doing team work recruiting in Ohio. "War weddings" have greatly increased the number of marriage licenses issued in most of the cities of the state since the Ohio National Guard received orders to recruit to war strength and mobilize for border service.

Ohio girls are facing the same situation as the women of Europe faced and are meeting it in the same way. Several long-time engagements have been cut short and the couples married; numerous love affairs have been quickly wound up at the altar and more than a score of Ohio "rookies" will leave brides at home, to spend "honeymoon honeymoons" along the border under arms. On the other hand, several conservative couples have postponed their weddings until the bridegrooms-to-be return from service.

DOCTORS MEET IN CINCINNATI IN 1917.
(ASSOCIATED PRESS TELEGRAM) Cedar Point, O., June 21.—The Ohio Eclectic Medical association is closing session here today chose Cincinnati for its 1917 meeting place and elected these officers: President, A. W. Hobb, of Sidney; vice president, P. D. Bikel, of Pandora; recording secretary, W. N. Mundy, of Forest; corresponding secretary, J. F. Whist, of Dayton; treasurer, J. G. Sherman, of Columbus.

ORPET TRIAL: YOKER GIRL TAKES STAND
(ASSOCIATED PRESS TELEGRAM) Waukegan, Ill., June 21.—Miss Celeste Yoker, an instructor in the De Kalb, Ills., normal school, announced as the final witness of the state against Will H. Orpet, charged with the murder of Marion Lambert, was expected to establish a link in the chain of circumstantial evidence to forge around the former university of Wisconsin student, when the trial was resumed today. It is believed that she will testify that she and Orpet were engaged to be married at the time of the death of Marion Lambert, his former sweetheart. This engagement, if it really existed, is said to be regarded by the state's attorney as establishing a motive for the crime which it is alleged was committed by Orpet.

YALE GRADUATES 751.
New Haven, Conn., June 21.—The annual commencement at Yale university was held today, 751 degrees were conferred and 13 honorary degrees being awarded.

PRESSURE

On French Lines About Verdun Has Momentarily Lessened

GERMANS GIVING AID TO AUSTRIANS

In Their Defense Against Russian Drive

ACTIVITY OF ARTILLERY

Around Famous Western Front Fortress Indicates That Germans Are Not Altogether Idle, But No Infantry Movement is Reported—Probable Change in Greek Ministry.

From official reports from European capitals the Associated Press gives out the following on the war situation:

While the weight of German military power is being increasingly felt on the western front where it stiffened the Austrian defense to the drive of the Russians, the pressure on the French at Verdun has momentarily lessened. There has been rather lively artillery activity around the famous western front fortress, but no further moves by the infantry are recorded in this afternoon's Paris bulletin.

The Germans have not been altogether idle on this front, however, for after having touched off two mines northwest of Rheims, a district in which the deadlock of the armies has been just about complete as anywhere along the line they attacked French trenches on a height south of Berry-aux-Bac. Paris declares the defensive curtain of fire caused the assault to fail completely.

Athens dispatches forecast probably changes in the Greek ministry as a result of the economic pressure which the allies have exerted because of their dissatisfaction with the Greek government's attitude. Resignation of cabinet of Premier Skouloudis is expected in some quarters. Former Premier Zaimis may be asked to form a ministry acceptable to the entente.

TURKS TAKE OVER MISSION SCHOOLS, ALSO HOSPITALS

(ASSOCIATED PRESS TELEGRAM) New York, June 21.—Schools and hospitals owned and conducted by the American Board of Foreign Missions at Marsovan and Sivas, Turkey, valued at more than half a million dollars, have been commandeered by the Turks for military purposes and missionaries compelled to abandon their work, according to Americans who arrived here today from the Orient.

The property was taken over, they said, in May when the diplomatic situation between the United States and Germany was tense over the negotiations growing out of the U boat controversy.

MRS. A. J. DREXEL GIVEN \$50,000 AS YEARLY ALLOWANCE.
London, June 21, 12 noon.—Mrs. Rita Armstrong Drexel, wife of Anthony J. Drexel, the American banker, was given judgment against her husband for a yearly allowance of \$50,000 by Justice Neville in the chancery court today. When the case was last before the court in December, 1915, Mr. Drexel contested the jurisdiction of the English courts on the grounds that he was a resident of France.

and at Piedras Negras, opposite Eagle Pass. Beyond Ojinaga increased activity was noticed, but officers here believe Colonel Gaston, commanding the American side has men enough to meet the situation. The heaviest addition to the Mexican border army was that at Piedras Negras, where Gen. Murguia arrived with 2,000 men.

General Funston announced that to the army's equipment there had been added today a large number of searchlights.

He was notified by the war department that detailed instructions have been sent him for organization of four regiments of infantry and two cavalry regiments under the army reorganization bill which will become effective July 1.

The procedure will be to assign experienced non-commissioned officers from existing regiments to the new organization to handle the recruits, who will be sent to recruiting stations in various parts of the country. Under the army bill many officers will be promoted to 1 and the command of the 1st regiment will be given to General Pershing.

KEYNOTE

For Ohio Republicans Sound ed by Ralph D. Cole at Convention

ARRAIGNMENT OF ADMINISTRATION

And Laudation of Willis Burden of Speech

SCRAMBLE FOR SENATOR

Herrick, Dick and Daugherty Leading Candidates for Toga Now Worn By Atlee Pomerene—Strenuous Efforts Made to Draw Progressives Back to Old Party.

(ASSOCIATED PRESS TELEGRAM) Columbus, June 21.—Ohio Republicans met here today for the opening of their state convention, talked over platform planks and assembled for an afternoon meeting to hear the keynote address of former Congressman Ralph D. Cole of Findlay, the temporary chairman, and also an address by former United States Senator Theodore E. Burton.

During the day delegates from the different districts met to name presidential electors, of whom twenty-four are to be selected—one from each of the twenty-two districts and two at large.

The adoption of a platform and the ratification work for tomorrow. It is generally conceded that the platform will include a suffrage plank in the national platform. Adoption of votes for women by a constitutional amendment will probably be the content of the plank.

There will be no endorsement of candidates by the convention but many of those who aspire to nomination for state offices were in the city today. Besides Governor Frank

MYRON T. HERRICK
Former Governor of Ohio, and Ambassador to France, candidate at Republican State Convention for U. S. Senatorial endorsement.

B. Willis, who is a candidate for the renomination, Rudolph Mack of Cincinnati, also a candidate for the gubernatorial position, attended the convention.

There were many candidates for senatorial honors including Myron T. Herrick of Cleveland, D. D. Woodmansee of Cincinnati, Harry M. (Continued on Page 12, Col. 3.)

Pershing Moves Eastward, But Mexicans Fail to Make Good, Threat to Attack Him

(ASSOCIATED PRESS TELEGRAM) San Antonio, June 21.—General Pershing has given the Mexican troops the opportunity to make good their threat to attack him if he moved east or west, but the Mexicans declined the issue.

The American commander sent a small force eastward to Guzman, about 35 miles from his line of communication yesterday to investigate a report that a concentration of Mexican troops had been made there. He reported the incident to General Funston today, adding that the detachment had returned without finding any Mexican troops in that vicinity.

Remembering General Trevino's threat to attack the Americans if they moved in any but a northerly direction, officers here regarded his failure to do so as indicative of reluctance on his part to carry out his threat.

General Pershing has given the Mexican troops the opportunity to make good their threat to attack him if he moved east or west, but the Mexicans declined the issue.

FEW YEARS HENCE NEWARK CITIZENS TURNING HISTORY'S

pages in search of interesting events in the progress of the city, will find, standing out in large letters, the name of Dr. H. S. Barrick, dentist, and Past Master of Newark Lodge No. 97 F. & A. M. When the new Masonic Temple project was started, Dr. Barrick, then "passing through the chairs" of the local lodge, was one of the men who gazed into a crystal and saw erected in North Fourth street a magnificent temple, a structure that Newark people would point to with pride. A few years later, after he had served through the various offices of the lodge, Dr. Barrick was elected Master and had the honor and pleasure of officiating at the dedication of the new Temple. Leaving the farm in this county, where he was born and reared, when a lad of 18, Dr. Barrick entered school at Ada, O. Later he entered the department of dentistry at Ohio State university and graduated from this institution in 1899. He began the practice of his profession at Darborton, O., and six years later moved to Newark to his present location in the Newark Trust building. Two years ago his constantly growing business necessitated the enlargement of his offices. He is affiliated with the First Methodist Episcopal church and is a member of the official board of that church.

SHOE-BLACKING'S PECULIAR ODOR DUE TO AN OIL

Washington, June 21. — Shoe-blackening owes its peculiar aromatic odor, faintly suggestive of the deep woods where spruce or hemlock needles pad the ground, to an oil which is manufactured from these same kinds of needles. Similar oils are obtained from the foliage and small twigs of various cone-bearing trees, and find use for a number of purposes. In Europe the finer of these oils are used extensively as perfume in soap. They are common components of liniments and other medicinal preparations. Cedar oil is chiefly used in the preparation of insecticides, and, to some extent, in making liniment.

Investigations of the yield and the value of the oil obtainable from some of our southern and western trees have been made by the Forest Service, partly with a view to the possible utilization of waste material left after lumbering in the national forests. In these investigations, longleaf and western yellow pine leaves produced the most promising results, but the needles obtained from these pines did not surpass the already firmly established spruce and hemlock oils. The large quantities of needles and twigs on Forest Service timber sale areas are not only a sheer waste, but also form a special fire hazard. An increased market for leaf oil would make possible the utilization of some of this waste material.

The industry, though small, is fairly old in the United States. The value of the annual production of needle oil is about \$50,000. Black and white spruce and eastern hemlock produce very similar oils, 40,000 to 50,000 pounds annually, worth 45 to 60 cents per pound. Red cedar produces 15,000 to 20,000 pounds of oil, having the same value per pound as the spruce and hemlock oil. A few other species furnish the rest of the conifer-leaf oil produced in the United States. Besides the home product, small quantities of needle oil are imported from Europe. One of these, silver birch, brings four dollars a pound. In most cases these oils have a pleasant odor. A few disagreeable when first distilled but become pleasant with age.

The greater portion of the oil produced in the United States is distilled by small farmers in New England during the winter months when farm work is slack. In 1912, a Seattle firm began the distillation of leaf oil from western red cedar on a large scale, but found that at the going market value of 40 cents a pound the oil scarcely repaid the cost of production. It was chiefly used in manufacturing an insecticide containing 35 per cent of cedar oil and 65 per cent of an absorbent made from the finely ground shells of peach pits. Four dollars and a half to five dollars and a half per ton, depending on the oil content, was paid for the leaves and twigs.

A firm at Grants Pass, Oregon, has patents covering methods and apparatus for utilizing western yellow pine needles in the production of fibre after the oil is removed by distillation. Their plant consists of wooden tanks with steam connections with daily capacity for 200,000 pounds of raw material from which ten pounds of oil are obtained, and, by suitable treatment, the spent needles produce a long tough fibre that can be woven into fabric or mixed with hair and made into mattresses.

The distillation process is very simple. Steam passed through the needles, usually at atmospheric pressure. The oil volatilizes and the mixed vapors pass into a cooling apparatus where condensation takes place, leaving a layer of oil and a layer of water. Distillation by steam under pressure is more rapid and produces more oil. Cutting the needles in small pieces before treatment increases the oil production. Young trees yield most. Trees growing in the open contain more oil than those in a dense stand. The winter and spring months are best for oil content.

John Lundberg of Worcester is beginning to think that his birthday is a hoodoo. This year he broke a rib, last year he broke a leg, and the year before that he had a crushed foot.

IRON IS GREATEST OF ALL STRENGTH BUILDERS, SAYS DOCTOR

A SECRET OF THE GREAT ENDURANCE AND POWER OF ATHLETES

Ordinary Nuxated Iron Will Make Delicate, Nervous, Run-down People 200 Per Cent Stronger in Two Weeks' Time, in Many Cases.

New York, N. Y. — Most people foolishly seem to think they are going to get stronger by taking iron. But the fact is, they are not. They are only getting weaker. Dr. Sauer, a well known specialist who has studied widely both in this country and Europe, when, as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally commence doctoring for stomach, liver or kidney trouble or symptoms of some other disease. But the fact is, the iron in the blood is the key to the door of health. This thing may sound old for years, while the patient suffers untold agony. If you are not strong or well, you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five grain tablets of ordinary nuxated iron for three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while, and even triple their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days.

time simply by taking iron in the proper form, and this after they had in some cases been doctoring for months without obtaining relief. But don't take the old forms of reduced iron, iron acetate, iron sulphate or iron chloride. They are not iron simply to save a few cents. You must take iron in a form that is easily absorbed and assimilated, and which does not injure the rest of your body, otherwise it may prove worse than useless. Many an athlete or prize fighter has won by the use of iron. He knew the secret of great strength and endurance and filled his blood with iron before he went into the arena, while many another has gone down to inglorious defeat simply for the lack of iron.

NOTE—Nuxated Iron recommended above by Dr. Sauer, is one of the newer, more potent iron compounds. Unlike the older, more inert iron products, it is easily assimilated, does not injure the rest of the body, nor upset the stomach; remedies, in fact, is a most potent tonic as well as for nervous, run-down conditions. The Manufacturers have such great confidence in Nuxated Iron that they offer to refund to any charitable institution if they cannot take any man or woman under 60 who lacks iron or over in four weeks time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Wm. A. Evans, at Evans Cut Rate Drug Store and all other druggists.

STANDING OF CONTESTANTS

The diamond ring contests are creating much interest and all of the various contestants are working hard as the end approaches. In the Queen contest, Miss Handel leads today and in the Homely Man contest Mr. Heinzman of Cleveland is at the top. Following is the standing:

Rose Handel	9,957
Lucile Sutterfield	6,749
Bess Thomas	6,363
Dora Rhebeck	6,130
Marguerite Phell	5,336
Lena Fritz	2,958
Homely Man standing:	
Jos. Heinzman	1,962
Dave Murphy	1,136
A. R. Gruber	1,041
Virgil Loughman	762

RECRUITING

(Continued from Page 1.)

around organization headquarters and the wearing of uniforms, almost third day of their expectant wait constant drilling, eating and sleeping in armories began to lose some of their novelty.

Brightening their tiresome waiting, however, was the knowledge that the call to mobilize will come soon, possibly early tomorrow and very likely not later than Sunday.

"We're one day nearer the beginning of things," would characterize the philosophical attitude taken by the majority of the men. All seemed anxious to reach the camp and still more eager for some definite word as to when the transfer of troops to the Mexican border might be expected.

Adjutant General Benson W. Hough today said no orders of any kind had been received from officials at Washington and expressed the opinion the federal authorities intend to allow state organizations to proceed in their own manner in getting their troops in readiness for summons to service.

Meanwhile with motor trucks, scrapers and an army of laborers, the majority of whom are members of the ninth battalion, Ohio's colored infantry organization, the work of preparing the camp at Upper Arlington was being rushed in record time.

Employees under Ohio state civil service who are called to duty in the Ohio national guard or other military organizations "because of unsettled conditions in Mexico" will be given a leave of absence in accordance with a section of the civil service law which provides such leaves shall be given and the employee reinstated upon return from such service, according to announcement made here today by members of the state civil service commission.

The positions thus vacated will be filled by persons appointed from regular eligible lists for temporary service.

With the prospect that orders to move to the Mexican border may be received at any moment Ohio national guard officers were alert today preparing their troops for the call. General Funston's request yesterday to the war department for a part of the guardsmen immediately caused a quickening of the movement toward mobilization of the Ohio troops.

Guardsmen of the different units which were included in the mobilization call were held at their armories last night in many cities. During the night Adjutant General Hough sent an order to the four companies of the ninth battalion located in Cleveland, Dayton and Springfield and Columbus, instructing them to report at the mobilization camp today. These companies, composed of negro troops, were not included in the mobilization order issued by the war department. It is understood that they are to be used in the work of preparing the mobilization camp for the remainder of the troops who are expected to arrive Thursday or early Friday.

Meanwhile recruiting is continuing at the different regimental headquarters. Word was received from Sandusky last night that company B, sixth regiment, had recruited its full quota of 65 enlisted men and was awaiting orders to move.

The Cleveland Grays, an independent military organization left Cleveland last yesterday for Dayton where they will be mustered into the guard today as company F, of the third regiment. With the assistance of the ninth battalion work progressed rapidly today on the construction of the mobilization camp at Upper Arlington, northwest of this city. Military officers expect it to be complete when the first troops arrive.

Postmaster Kinnear of Columbus was completing arrangements today for a branch postoffice at the camp through which may be distributed to the 8000 troops.

Flags will be displayed throughout Columbus when the guardsmen arrive. Mayor Karb has requested all citizens to decorate their homes and throughout the business section, buildings will be decorated with the stars and stripes.

Going on the assumption that the Ohio national guard will be quartered at Camp Willis, near Columbus, for at least a month before being sent to the Mexican border, extensive arrangements are being made by small vendors to reap a harvest of nickels and dimes from the thousands of out-of-town visitors who are expected to visit the camp.

Lunch stands, post card stands and souvenir stands are springing up like mushrooms about the camp.

Camp Willis is located at Upper Arlington, about five miles north-west of the business section of the city. It is near two railroads and is on two street car lines. The railroads also are making extensive arrangements for taking care of the large crowds of visitors who are expected to attend the camp.

When the Ohio troops were quartered here at the opening of the Spanish-American war, Columbus was taxed to capacity with visitors, friends and relatives of the troops,

all anxious to see the soldier boys in camp for a last time before being sent south.

Camp Willis is a natural site for a camp. It is located on rolling land and the drainage is unusually good, militia officers say. The camp site occupies about 600 acres. More land adjoining is available, should it be needed.

Arrangements probably will be made to detain troops along one of the railroads near the camp. This will avoid the necessity of the troops marching the five miles through the city.

Adjutant General Hough this afternoon received the following assignment of federal army officers from Major General T. H. Barry, of the central department of the United States army with headquarters at Chicago. They will have charge of the mustering of the Ohio national guard into federal service after the state troops have mobilized at the camp here:

Chief mustering officer, Major Robert W. Mearns, of the University of Illinois; assisted by Captain H. H. Tebbets, of Columbus; Captain L. M. Adams, of the engineering service, Fort Leavenworth, Kansas; Captain B. O. Davis, of the colored cavalry, Wilberforce University; Lieutenant L. L. Hunsacker, cavalry, Columbus; Lieutenant C. F. Severson, infantry, St. Johns Military Academy, Delafield, Wis.; Lieutenant J. G. McIlroy, of Columbus, assistant to Captain Tebbets, and Lieutenant Ray C. Hill of Ohio Northern University, Ada, Indiana.

EX-SENATOR DICK OFFERS SERVICES TO GOVERNOR WILLIS.

(ASSOCIATED PRESS TELEGRAM)

Columbus, June 21.—Former Senator Charles Dick of Akron, today tendered his services to Governor Frank B. Willis for military service in any capacity in the Mexican trouble in the event they were needed. Mr. Dick made a personal call on the governor. He was major general of the Ohio division of the national guard from its organization until the division was disbanded by federal order in 1913. He also served through the Spanish-American war and was the author of the Dick national guard law.

TWO REGIMENTS IN NEW YORK ARE ON WAY TO CAMP

(ASSOCIATED PRESS TELEGRAM)

New York, June 21.—The first two regiments of the New York national guard to respond to the call for service on the Mexican border left this city today for the state camp at Beekman where it is expected that about 18,000 men will be assembled when the state mobilization is complete.

Most of the other New York City regiments are in their armories awaiting the order to start for the camp and meantime are recruiting to bring their enlistments to full war strength.

Percival Tibb, president of the American Tobacco Company, announced today that its employees would receive full pay and their positions would be held pending their return. Many firms in the silk business signed a similar agreement.

PITTSBURGH WILL FEED SOLDIERS PASSING THROUGH

(ASSOCIATED PRESS TELEGRAM)

Pittsburgh, June 21.—Pittsburgh will follow the precedent established in the Civil war and feed all soldiers passing through the city. Officers, sandwiches and probably more substantial food will be provided for a number now estimated at 30,000. No soldier passing through the city will go hungry. The Pittsburgh chapter of the Women's Division for Preparedness will have charge of the work and city council has agreed to pay all expenses.

CLEVELAND TROOPS CAMP IN A PARK

(ASSOCIATED PRESS TELEGRAM)

Cleveland, June 21.—Three hundred Cleveland members of the Fifth regiment went into camp at Clinton park here this afternoon.

The second company of Cleveland troops left this city early today when Company D, of the Ninth Battalion (colored) left for Columbus.

Troop A, Cleveland's famous cavalry organization has enrolled the necessary number of recruits to reach its full war strength of 100 men and is ready for service.

TOLEDO SOLDIERS ACT AS AN ESCORT TO SECY. REDFIELD.

(ASSOCIATED PRESS TELEGRAM)

Toledo, June 21.—All the companies of the sixth Ohio regiment here will form an escort from the railway station to the steamboat landing for Secretary of Commerce Redfield when he arrives here Saturday. Secretary Redfield is going for a three days' upper lake cruise on the steamer South America, of Chicago with several hundred members of the Toledo commerce club.

A Virtue Misplaced.

"I ordered this steak not well done," said the impatient guest.

"I know it," answered the intellectual waiter. "But the cook is one of those people who believe that no matter how small a thing is it should be well done."

STOP INFLAMMATION IN BURNS AND WOUNDS

Ion-o-lax is probably the most important discovery that has been made in the field of medicine in fifty years.

It is perfectly harmless and does not interfere with any other treatment.

Takes the pain out of a scald or burn almost instantly.

Stops inflammation anywhere in the body.

In Neuritis, Acute Rheumatism, Gout, Toothache, Bronchitis, Appendicitis, Eczema, Erysipelas, Inflammation of the eye, ear, nose, throat, and all other inflammations, acts promptly and effectively.

Two forms—Ion-o-lax Unguent for external use and Ion-o-lax Liquid for internal use.

You can get Ion-o-lax Unguent at Evans Cut-Rate Drug Store, who sells it under a guarantee—money back if it fails.

An Eventful and Extraordinary Sale OF Mid-Summer MILLINERY

You Can Own a New Hat For Less Than Manufacturer's Cost for Your Vacation

CARRANZA GETS AMERICAN NOTE

(ASSOCIATED PRESS TELEGRAM)

Washington, June 21.—Special Agent Rodgers, at Mexico City telegraphed the state department today that the American note had reached there and was being considered by General Carranza and his cabinet. He made no mention of how it was received.

PRISONERS LEAP TO LIBERTY FROM A PATROL WAGON

(ASSOCIATED PRESS TELEGRAM)

Canton, June 21.—Five prisoners being conveyed to the county work-house in the police patrol automobile late Tuesday afternoon made their escape from the patrol by picking the lock on the door and leaping from the machine to the street. Three other prisoners in the patrol did not attempt to escape. One of the five was caught but the others are still at large.

The machine was traveling at a speed of about 20 miles an hour when the prisoners jumped out. One was injured in the leap and unable to get away.

The Courts

Justice Scott's Court.

Ell Rice and Marie Borlea were arrested on the affidavit of Todor Borlea, husband of Marie, who charges them with adultery. Justice Fletcher S. Scott has set the hearing for next Wednesday morning at 8 o'clock. The parties to the suit are foreigners and reside in Beach street.

Marriage License.

Clarence G. Parr, a farmer of Franklin township, and Miss Clara S. Eden of Hopewell township. Rev. Ed. M. Larson named to officiate.

R. R. CLERKS STRIKE

(ASSOCIATED PRESS TELEGRAM)

Buffalo, N. Y., June 21.—Freight traffic on the Grand Trunk and Wabash railroads over the international bridge is practically at a standstill today as the result of a strike of 71 of the 78 clerks and car checkers in the Grand Trunk-Wabash offices at Black Rock and in the Bridgeburg, Ont., yard. The clerks demand wage increases averaging 12 1-2 per cent.

If there is one person who can make more mistakes than the weather prophet it is the political prophet.—Baltimore Star.

Read The Advocate Wants tonight.

MISS SHOWMAN IS STILL UNCONCIOUS AT CITY HOSPITAL

The condition of Miss Ethel Showman, victim of the motorcycle accident Monday night, remains unchanged according to announcement at the City hospital this afternoon. She is still unconscious, and her condition is regarded as serious. Miss Showman suffered a fractured skull when she was hurled to the pavement when the motorcycle of Howard L. Loughman struck a buggy she was about to enter. Loughman was killed instantly.

HUGHES MARCHES WITH HIS CLASS AT BROWN UNIV.

(ASSOCIATED PRESS TELEGRAM)

Providence, R. I., June 21.—Charles E. Hughes, the Republican nominee for President, motored to Providence today from the home of his friend, Benjamin Barker at Tiverton, whose guest he had been since his arrival here Monday night for a day of activity in college affairs.

Mr. Hughes marched with his class, that of '81, in the Brown university commencement exercises and later was the guest of President Faunce of Brown.

The program also included a reception at the Young Men's Republican club and a dinner tonight at the home of Governor R. Livingston Beekman.

PITTSBURGH VETERANS AIDING IN RECRUITING.

(ASSOCIATED PRESS TELEGRAM)

Pittsburgh, June 21.—Recruiting for the regiment being formed by the Pittsburgh military training association, the local Plattsburg contingent, began today under the direction of a committee of Pittsburgh veterans, headed by Major C. B. Mehard, until recently adjutant of the Second brigade, Pennsylvania National Guard. The 400 members of the association, who had already enlisted for service at Plattsburg are to enlist as a body and 600 veterans of foreign wars also.

PROGRESSIVES HAVE NO TICKET IN KANSAS.

Topeka, Kan., June 21.—There will be no progressive party ticket in Kansas this year. This was made known today when it was announced that the ten presidential electors chosen at the state convention last month would not file their declarations. It was announced sometime ago that there would be no progressive state or congressional tickets in this state.

JOVIAN'S OUTING.

About 30 members of the Newark Jovian, journeyed to Buckeye Lake this morning to participate in the outing of Jovians from Columbus, Mt. Vernon, Lancaster and Newark, which are meeting at the "Sun Fish" club today.

THE A. J. ROW FAMILY IS NOW MUCH BETTER

MRS. ROW TELLS DRUGGIST EVANS HOW NERV-WORTH BROUGHT THEM HEALTH

This is the Very Newest Local Nerv-Worth Endorsement. It Tells Again the Some Convincing Story of Wonderful Nerv-Worth Merits.

Mr. T. J. Evans:—My two children, Harold J. Row and Mary Alberta Row and also my husband have been using it (Nerv-Worth).

"I also advise people who read this to go to Mr. Evans' drug store on the East Side and get a bottle of Nerv-Worth and see if they will not be greatly benefited by using it, as it costs only one dollar a bottle."

"MRS. A. J. ROW."

"Route Seven."

Mrs. Rowe preceded this with a strong statement concerning the wonderful benefits which Nerv-Worth conferred upon her own health. Mrs. Rowe used two bottles of Nerv-Worth with splendid effect. So serious were her nervous ills that she was unable to sleep at night. But after taking those two bottles said Mrs. Rowe, she felt decidedly better.

Your dollar back at the T. J. Evans drug store if Nerv-Worth does not help YOU. 6-21-23

NOVEL METHOD OF TRAVELING OVER COUNTRY

Otto Hagel and son of Los Angeles, Calif., arrived in the city last evening in a car that was certainly a novelty, and which solves the problem of cheap transportation. It was a hotel and Pullman car combined, the machine being of that make which everybody ridicules, talks about—and then buys and rides in one—the make which bears the name of the noted Michiganander who endeavored to bring about peace between the warring factions of Europe and later was talked of as a presidential possibility, Henry Ford.

Mr. Hagel and son left Los Angeles May 18 on a wagon of \$100 and a dinner party for a number of friends that they could drive through to New York and back on \$100 worth of gasoline. They are not attempting to break any record and offer nothing for sale but pay their own way as they go.

The book which the tourists keep shows that they have burned up just \$38.18 worth of gas between Los Angeles and Newark. They followed what is known as the Southern route and will return over the Lincoln Highway.

Mr. Hagel and son conduct an auto-repairing establishment in the California city which is their home, and also have a garage in Winfield street. They have transformed a Ford touring car into one of convenience for travel. The tonneau is filled with bedding and at night they pull the curtains, stretch a bed across the seats and secure a good sleep. On the left side of the car a kitchen cabinet is erected on the running board and they carry everything found in a first class kitchen, their eggs being in crates, not having lost a one by breakage on their long journey. On each side of the cabinet is a compartment for tools, and any trinkets which they care to carry.

On the rear of the car a wardrobe has been built which contains five drawers, where clothing and furnishings are carried. A dust proof and rain proof rubber case protects it. The machine attracted much attention while in this city.

Mr. Hagel and son expect to reach New York some time next month and will visit there and through the New England and states for a couple of months and will then start on the return trip, reaching Los Angeles about October 1.

Mr. Hagel says that he paid 45 cents a gallon for gasoline in New Mexico.

CONTEMPT CHARGE IS FILED AGAINST U. S. ATTORNEY

(Associated Press Telegram)
Washington, June 21.—United States District Attorney Snowden Marshall of New York, will be haled before the bar of the house to answer a charge of contempt because of criticism of the judiciary subcommittee's investigation of impeachment proceedings against him.

This action was decided upon by the house yesterday when it sustained, by a vote of 208 to 85, charges of contempt against Mr. Marshall. Speaker Clark was prepared today to issue a warrant for his arrest, although it was thought he might appear voluntarily.

Just what sentence will be imposed upon the district attorney has not been determined, but it is probable that he will be publicly censured. Imprisonment may also be imposed.

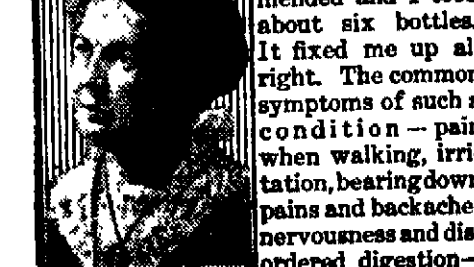

A family of 17, all able to pick cotton paid Hillsboro, Texas a visit recently. In this family are four twins and one set of triplets, leaving eight singles besides the parents, Mr. and Mrs. Joel. The Joels gather two bales of the fleecy staple a day.

MRS. MAY'S LETTER TO WOMEN

More Proof that Lydia E. Pinkham's Vegetable Compound Relieves Suffering.

Chicago, Ill.—"I suffered from a bad case of female ills. Lydia E. Pinkham's Vegetable Compound was recommended and I took about six bottles. It fixed me up all right. The common symptoms of such a condition—pain when walking, irritation, bearing down pains and backache, nervousness and disordered digestion—

soon passed away. I look much better now than I did before, and I recommend the Compound every time for female troubles, as it did for me all it is claimed to do. You have my permission to publish this letter." Mrs. J. MAY, 2648 S. Lincoln St., Chicago, Ill.

If you have any of the symptoms mentioned in Mrs. May's letter, remember what Lydia E. Pinkham's Vegetable Compound did for her, and try it yourself. It is a good old-fashioned medicine, made from roots and herbs, and it has helped countless numbers of women.

If you need special advice, write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Uses For Old Bones.
Bones are not wasted. The chief product is glue, and among other materials which are obtained from them are soap, glycerin and fertilizers. After being carefully separated by workmen they are soaked in a weak solution of sulphuric acid. From the soaking tanks the bones emerge white and perfectly clean. They are then placed in steam tanks, where, after being subjected to a pressure of steam for several hours, a trapdoor is opened at the bottom of the digester, as it is called, and the liquid glue that has been extracted is drawn off. The liquid glue is partly evaporated, and a portion is allowed to harden for commercial use as glue, and a part is refined and sold for gelatin for table use. Floating on the top of the glue in the digester is a quantity of fat that has been also extracted from the bones by the steam. This is drawn off into cooling tanks, where in its crude state it is made into scouring soaps. By refining and adding vegetable oils and perfumes toilet soaps are made.—London Globe.

Chest Measurements.
Put a tape measure round your chest and note the measurement. Puff your chest out by taking a deep breath and note the number of inches that you increase. One inch of expansion would be very feeble; two is rather poor. We all ought to put on three inches, and four is good. It is right and proper that the lungs should be well expanded at each breath. The air penetrates more easily into some parts of the lungs. The apex, at the base of the neck, just behind the collar bone, is rather a sluggish part of the incoming air current. That is considered to be one of the reasons why the apex is the commonest site for consumption. All children should be taught breathing exercises. The ribs are soft in childhood and youth and can be molded into shape. When once growth has stopped the ribs are in their position and shaped for life. Therefore take pains to cultivate a good chest that expands several inches.

Monster Jellyfish.
An interesting feature of the bay of Naples is the great quantity of large jellyfish found therein. It is not unusual to find them fully two feet in diameter and weighing up to sixty pounds. Some of them shine at night with a greenish light and are known as nocturnal (night lanterns) by the natives. The jellyfish sometimes make migrations in great groups, sometimes so large and so thick as to impede the navigation of vessels, like the floating plants in the Sargasso sea of the tropics. These shoals of medusae, as they are called, may at times be so dense that a piece of timber plunged in among them will be held upright as if stuck in the mud, and ordinary rowboats cannot force their way through them. Their migrations have never been explained.

Strenuous Piano Playing.
The late Lord Burnham's house was one of the few—perhaps the only one—where the tapscuro of London opera seasons allowed his singers to perform at evening parties. In that drawing room you might hear the prima donna out of Covent Garden, and for other manners of music also those parties were memorable. Many respectful hearers have sat by while a great pianist has broken the cord of a grand piano, but at Lord Burnham's on one occasion Rubinstein broke not a cord, but a key. That great composer was a strong man of his hands. The key was a "natural," an ivory note, and when it snapped he threw the fragment over his shoulder and went on.—London Chronicle.

An Omnivorous Insect.
There is in Egypt a little shaggy black and tan insect about an eighth of an inch long that eats almost everything under the sun. In most countries ivory brushes are pretty safe from insects. In Egypt this little terror eats the ivory and eats the bristles. It eats your toothbrush and eats your toothpick. It eats the wool with which you are going to mend your husband's socks—the cards as well as the wool. It eats the handles off your knives and forks. It rejects nothing but glass and china and metal.—Sladen's "Egypt and the English."

The Old Man.
Little Pitchers—Mrs. Fussy, let me see your old hen. Neighbor—What old hen, boy? Little Pitchers—Why, old hen, boy? This morning when you sent over to borrow some flour and lard if she was sending more chicken feed to the old hen next door.—Baltimore American.

What Beauty Is Called.
Socrates called beauty a short lived tyranny; Plato, a privilege of nature; Carneades, a solitary kingdom; Aristotle, that it was better than all the letters of recommendation in the world; Homer, that it was a glorious gift of nature.

Joy For Him.
Wife—The dressmaker says she won't make me another gown until you pay her bill. Hub (with relief)—That is very good of her. I'll send her a note of thanks.—Boston Transcript.

Warning.
Don't go shouting your virtues from the housetop. Some inquisitive person might go poking around to see what you've got hid in your cellar.—Florida Times-Union.

Blessed is he who, having nothing to say, abstains from giving wordy evidence of the fact.—Elliot.

Denmark has 97,000 hives of honey bees.

LONGEST DAY OF THE YEAR IS JUNE 21ST

(By Oliver C. Larason.)
Today, June 21, is the longest day of 1916—about 15 hours long. Astronomically considered, summer begins today and in about one month from now we may expect our warmest weather. For a similar reason, usually we have our warmest part of the day two or three hours after noon. The sun now reaches the most northern point in the heavens, the summer solstice, and seems to stop and stare before returning southward, hence the name.

The sun now passes around the earth directly over the tropic of Cancer, which in the western continent passes over the central part of Mexico and just south of Florida. Our summers are longer than our winters because the sun is not in the center of the earth's orbit. We are about three million miles farther from the sun in summer than in winter—the obliqueness of the sun's rays striking our north temperate zone overcomes the distance as to heat.

If a person now were standing on the Cancer parallel of latitude, he would see the sun rise and set nearly on that parallel and at noon it would be directly over head. As he would travel north the sun would rise and set farther and farther north of the true east and west points until it would dip below the horizon for a short time in the north at midnight. By traveling on to the north pole he would see the sun passing around him in a circle for a few months, thus having no night in the mean time. Persons living in villages in this six-months day, by common consent, all suspend business and sleep at the same time.

There are two important imaginary lines passing near Newark. One, the 40th degree of north latitude, crosses the Jackson town pike in the vicinity of Elizabethtown. The other, the meridian 82½ west longitude passes just west of the city at Central City. These are given as the latitude and longitude of Newark. We with the earth, are putting to shame the rapidity of fast trains, autos, and motorcycles, yet with perfect safety, for the hand of Providence is the guiding power. We travel 68,000 miles an hour in our journey around the sun, and in Newark we travel 700 miles an hour with the rotation of the earth, and if we lived on the equator this latter speed would be increased to over 1,000 miles an hour. Then to think that this big earth-vehicle weighs 6,000,000,000,000,000,000 tons. Who can but admire the simplicity, greatness, and vastness of the wonderful work of nature?

NEIGHBORHOOD PRAYER MEETINGS

The weekly neighborhood prayer meetings will be held at the following homes this week, the neighbors being very welcome to the meetings:

Subject, At His ascension by the Apostles, Luke 24:50-53; Acts 1:9-10.

Division 3—Mrs. Grant Jones, Indiana street.

Div. 12—Mrs. Shaw. (The members of this division regret that their leader has been so unwell recently, and sincerely wish her early recovery, as her services have been so helpful at the meetings of her division.)

Div. 13—Mrs. Dupler, Franklin avenue.

Div. 34—Card not received. Topic for next week: Jesus' appearances to Paul on the way to Damascus. Acts 9:3-5; 22:7-15; 26:9-18.

ROBERT NORTHEY.

The largest electric range in the country has been placed at the Montana Hospital at Warren Springs, Mont. It has eight ovens and will prepare the meals for 1,500 persons daily.

SUDDEN DEATH Caused by Disease of the Kidneys.

The close connection which exists between the heart and the kidneys is well known nowadays. As soon as kidneys are diseased, arterial tension is increased and the heart functions are attacked. When the kidneys no longer pour forth waste, uraemic poisoning occurs and the person dies, and the cause is often given as heart disease, or disease of brain or lungs.

It is a good insurance against such a risk to send 10 cents for a sample package of "Anuric"—the latest discovery of Dr. Pierce.

Sample of your water. This will be examined without charge by expert chemists at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. When you suffer from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired, worn-out feeling, it's time to write Dr. Pierce, describe your symptoms and get his medical opinion without charge—absolutely free. This "Anuric" of Doctor Pierce's is found to be 37 times more active than lithia, for it dissolves uric acid in the system as hot water does sugar.

Simply ask for Dr. Pierce's Anuric Tablets. There can be no imitation. Every package of "Anuric" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Golden Medical Discovery for blood and stomach.

WORRY, DESPONDENCY.

Kidney Disease is suspected by medical men when patients complain of backache or suffer with irregular urination, disturbed, too frequent, scanty or painful passage. The general symptoms are: rheumatic pains of neuralgia, headaches, dizzy spells, irritability, despondency, weakness and general misery. Worry is a frequent cause and sometimes a symptom of kidney disease. Thousands have testified to immediate relief from these symptoms after using Dr. Pierce's "Anuric" Kidney Tablets.

SUMMIT STATION

Miss Sadie Bowsher of Sedalia, Mo., spent Sunday with relatives at this place.

Miss Helen Albery and Miss Sadie Bowsher will spend a few days this week with relatives in Newark.

Mr. and Mrs. Charles Salts of Columbus spent Tuesday evening with Mr. Salts' parents, on Cleveland street.

A letter was received by friends at this place from Crown City, stating the terrible loss by fire, which burnt the store and dwelling house of Mr. John McClure. The family who sleeps above the store was awakened about 4 o'clock when the room was filled with smoke. They had a hard time in awakening their son Ralph. They secured a few of the household goods. The letter states it was a total loss. Mr. McClure was in the mercantile business at this place and moved from here to Crown City.

Miss Julia Besse is visiting her grandparents, Mr. and Mrs. Wm. Boner of Newark.

The Misses Bernice and Olive Holcomb are spending this week with their sister, Mrs. Blanch McNaughten at Reynoldsburg.

Mr. and Mrs. Robert King spent Sunday with their cousin, W. H. Hayden at Columbus.

Glorie and Samuel Besse and Victor Geiger motored to Warren, O., Monday.

The children's day exercises held in the M. E. church Sunday night was a grand success. The committee deserves much credit for training the children in the way they did.

Miss Winnie King of Linworth spent Sunday with relatives here.

R. S. Albery is raising and remodeling his dwelling house.

Wilber Heady and family of Columbus spent last week with relatives at this place.

Clyde Steward and family spent Sunday with C. A. Slaney and family at Pataskala.

A birthday party given in honor of Mrs. Elizabeth Roberts' 94th birthday anniversary given at the home of Elizabeth and Fannie Plietner on Main street. Those present were Mr. and Mrs. Owens Halliday, Mrs. Chas. Harmon and mother, Mrs. Moon from Columbus, Mr. Sherman Plietner, East Columbus; Mr. and Mrs. Saul Sands, and son, Byron Owens and children of Summit, Dr. Leatherman and wife of Outville.

S. B. Besse and family, Miss Emma Holler and Victor Geiger spent Sunday with M. J. Bener and wife south of Newark.

Miss Emma Holler of Newark who has been visiting relatives here returned to Newark Sunday.

The German Iron cross which has been given since the war of liberation in 1813, is not, as commonly supposed, entirely of cast iron, but has an edging of silver. Bestowal of the decoration carries with it a small allowance to members of the rank and file.

ESTABLISHED IN 1820

Entered as Second Class Matter
March 10, 1882, at the postoffice at
Newark, Ohio, under the Act of March
4, 1879.

It is never a good plan to swap
horses while crossing a stream of
water.—Abraham Lincoln.

Better Dairying.

The Advocate recently noted some
advertising literature which was being
printed in its job room for The
Licking Creamery company.

The gist of these communications
is to the effect that the Licking Co.
pays a certain definite amount of
money per hundred or per pound of
product, as the case may be, be-
cause milk or cream is produced on
farms complying with a specified set
of simple sanitary requirements.

It may seem rather remarkable at
first thought that mere cleanliness
carries with it a definite commer-
cial value which can be measured in
dollars and cents. A little reflection,
however, reveals the extreme wisdom
of such a proposition. Sanitation
and health are very closely linked to-
gether and become constantly more
so as our population increases and
our cities become larger and more
densely inhabited.

It is a pleasant thought to every-
one to think of food of any kind as
having been carefully and respect-
fully handled, and it amounts to
positive satisfaction to realize that
it is safe from disease contamination,
especially so if the consumer is one's
own particular self.

A new spirit is gradually extend-
ing its influence through modern
business channels; a desire that all
products shall be produced upon such
a basis as to render the highest de-
gree of usefulness to the ultimate
consumer. This tendency to place
matters upon a live and live basis
is commonly called service.

The highest degree of service
which a dairyman who is producing
milk for public consumption can ren-
der, is to have his milk cared for un-
der such conditions as to make it
safe and capable of rendering its
highest degree of usefulness. To do
this requires care on the part of the
producer, however, the same care
applied to farming methods clear
through usually spell success, espe-
cially if applied on a business basis
as an increased output of farm pro-
duct results.

In addition to this the higher mar-
ket price which is commanded by a
carefully prepared product gives an
additional return which cannot be
overlooked.

The better and more carefully
products are produced the larger
will be the amount consumed; and the
greater the demand, the higher the
price. Many dairy farms in the vi-
cinity of Newark are already equip-
ped on a splendid working basis and
are gradually making themselves
felt as a constructive power in our
midst; a real resource to the whole
community.

It is well worth while that these
progressive men be accorded full
credit for the work they are doing.
The business man and the business
farmer are beginning to understand
each other as never before. A new
era seems to have been born.

It is highly important that the

Daily History Class—June 20.

ish ship flying the Swedish flag.

ASTRONOMICAL EVENTS.

Rising stars: Saturn, Mars. Morn-
ing stars: Jupiter, Venus, Mercury.
The Skyle, in constellation Leo, sets
nearly due west about 11 p. m.

face with fortitude the gravest disas-
ters, even death itself, but fret and
fuss and frown over little ills which
a cheerful smile would dissipate as
sunshine dissipates malarial mists.

Men who arise as masters in great
emergencies may be stung to death
by little annoyances.

It is almost entirely a matter of
habit. Cheerfulness may be culti-
vated, as well as health. Indeed, the
two blessings generally go together.

Fortunately, few of us may be call-
ed upon to go smiling to the death
chair.

But we are all called upon every
day to smile away life's little wor-
ries.

Interest In Birds.

There are 53,000 more boys and
girls enrolled in Junior Bird Clubs
this year than there were last year.
With the closing of public schools,
the records of the National Associ-
ation of Audubon Societies show that
205,138 boys and girls were this year
enrolled in bird classes, under the
instruction of 9,901 teachers.

Ohio's record in this work is ex-
cellent, there being 596 of these
classes, with a total membership of
20,657 in this state. Dr. Eugene
Swope, the Audubon educational
agent for Ohio believes that with
the increasing interest in wild birds,
he can see a corresponding public in-
terest in the elimination of the house
cat.

A Columbus picture show man in
advertising a coming attraction
makes a bid for business by an-
nouncing that "children under 16
will not be admitted." It's a diffi-
cult matter these days to tell 16
from 26 except when dealing with
the male species.

Time for Hughes to
Speak Out.

(New York Evening Post.)

Mr. Wilson put his finger on the
spot with sure touch, in what he said
in his Flag Day speech about his pro-
German opponents. It is "a very
small minority but a very active and
subtle minority" of German-Ameri-
cans that have been carrying on this
organized opposition; and the charge
he makes is that they "are doing
their best to undermine the influence
of the Government of the United
States in the interest of matters
which are foreign to us." To defy
them to do their worst, is good polit-
ics. Just now the element thus
spurred by Mr. Wilson is indulging
in the most exuberant expressions of
love for Mr. Hughes and confidence
in the utterly satisfactory character
of his Americanism. This is doubt-
less great fun while it lasts; it is a
long unaccustomed pleasure for a
paper like The New-Yorker Herald
to be able to shout for an American
of the standing of Mr. Hughes. But,
if that gentleman doesn't put a sud-
den and complete stop to all this
joy, and turn this unsought love-
making into something of quite the
opposite character he is not the man
we take him for.

Appeal to Labor.

(New York World.)

Why should President Garretson
of the Order of Railroad Conductors
denounce as "intimidation" the ap-
peal of the Pennsylvania Railroad
to its employees to stand by it and
to discontinue any move on the
part of 25,000 trainmen that would
throw out of work 121,000 other
employees of the company? It is a
perfectly rational statement.

The members of the railroad
brotherhoods should hesitate before
voting to strike, not only for their
own sake but for that of their
brother workmen. They have it in
their power to do immense injury
to hundreds of thousands of men in
the employ of the railroads and
many more in other industries to be
affected immediately if the train
service should stop. The threats
they aim at the railroads if they
take extreme measures, will fall with
equal severity upon the miners, the
mill-workers and all classes of
wage-earners.

When the negotiations carried on
between the railroad managers and
the representatives of the "Big
Four" brotherhoods were broken off,
the obvious step was to resort to
arbitration proceedings before an
impartial commission. That avenue
to a peaceful settlement has not
been closed. It will only be closed
by rash action by the trainmen in
precipitating a strike.

Quite.

"Mrs. Chatter seems to be quite
a conversationalist."
"Yes. She has three cars to brag
about and six servants to complain
of."—Boston Globe.

PRESIDENTIAL POINTERS

In the fourth presidential elec-
tion, 1800, 16 states took part,
having 138 electoral votes, the same
as in 1796. The count re-
sulted in a tie for president,
Thomas Jefferson and Aaron
Burr receiving 73 votes each.
John Adams 65, Charles C.
Pinckney 64, John Jay 1. There
being a tie vote between Jef-
ferson and Burr, the election was
carried to the house of repre-
sentatives. Jefferson there re-
ceived the votes of 10 states,
and Burr the votes of four—two
voting blank, making Jefferson
president and Burr vice pres-
ident. They were inaugurated in
Washington, March 4, 1801.

What President Wilson
Has Done.

(New York World.)

The American people owe their
peace and prosperity to Woodrow
Wilson, and they owe to him the
most important program of progres-
sive domestic legislation ever enact-
ed by a single administration since
Washington's. He has taken plu-
to-ocracy and privilege out of popular
government and put the Republic
back on the democratic track. They
are further indebted to him for the
most comprehensive measures of na-
tional defense ever undertaken in
time of peace—measures that bid
fair to solve the perplexing problem
of arming democracy and still hold-
ing it fast to the best traditions of
democracy.

His leadership has made the coun-
try ready to face the new problems
that a world war has imposed upon
mankind. He has pointed the way
to a new peace of the nations by
which the weak can be protected
against the strong and the security
of each guaranteed by the strength
of all. American democracy cannot
repudiate him without repudiating
its highest ideals and aspirations.

We should not dream of paying
the President the silly compliment of
saying that he had made no mis-
takes. Like all other human beings,
he has committed faults of reason-
ing and faults of judgment, but his
administration as a whole has moved
ever forward, ever in the right di-
rection, ever in the pathway of true
Americanism and true democracy.

Its impulses have been the right im-
pulses, its motives the right motives,
its principles the right principles.
No other country in the world
would dream at a time like this of
driving a tried leader like Woodrow
Wilson out of office to make an ex-
periment. No other country in the
world would hold its peace and its
welfare in such light esteem that it
would care to take chances and sub-
stitute the unknown for the known.

Mr. Wilson has given to the
American people the one truly pro-
gressive administration that they
have had since liberty and union
overcame slavery and secession, only
to sink into quicksands of plutoc-
racy and reaction. Whatever the out-
come of the election may be, his
place in history is fixed. He will
rank not only among the great
Presidents of the United States, but
among the great leaders of Democra-
cy for all time.

Quaker Quips.

(Philadelphia Record.)

It's a good plan to look before
you leap. But love is blind.
When the world is full of sun-
shine it's a good plan to put some
by for a rainy day.

The man who sits down and
waits for things to come his way is
apt to take on weight.

A pessimist is a man who permits
his regret for the past to outweigh
his hope of the future.

Lots of people can't stand pros-
perity, especially if it happens to be
other people's prosperity.

No, Maude, dear; the fact that we
have liberal views isn't what in-
fluences us to give ourselves away.

Clothes don't make the man, nor
a complexion the woman. Some
women's wear well, others wear off.
You never can tell. Don't jump
to the conclusion that a woman is a
jewel just because she is set in her
ways.

Spirit of the Press

Foreign Loans.

Russia's \$30,000,000 loan in this
market has been fully subscribed.
The Anglo-French loan of \$500,000-
000 was offered here in connection
with an Anglo-French offensive on
the western front which ended when
the loan had been floated. But Gen.
Brusiloff's drive on the eastern
front is not likely to end with the
success of this loan. Russia may
want to borrow some more.—New
York World.

Wilson.

ministration of Woodrow Wilson, to
its remarkable achievements and
unparalleled difficulties and trials,
to the patience, skill and sagacity
of its remarkable President, to the
strong hold which it has established
in the gratitude and confidence of
the American people, that we owe
this unique and reluctant perform-
ance of the Republican party. If
we had not had Woodrow Wilson in
the Presidential chair during the
four most critical years of the last
half-century of American history
Mr. Hughes would have been undis-
turbed in his judicial station.—Rochester Herald.

Concerning Size of Earth.
"Most folks consider this old
world a pretty big place, but if you
tossed a cube 1-700th of an inch in
diameter into Lake Erie it would
occupy the same relative space in
that great inland sea that our earth
occupies in a universe terminating
at the nearest star, Alpha Centauri,
and extending a similar distance
from our sun in all directions. Such
a universe contains 15,625,000,000-
000,000,000,000,000,000,000,000-
000,000 (fifteen thousand six hun-
dred and twenty-five undecillion)
miles, but it is only an infinitesimal
dot in the actual universe."—John
Brashear, astronomer, in July Ameri-
can Magazine.

Pointed Paragraphs

"I have not desired the nomina-
tion," says Mr. Hughes. Now,
Charley, remember you are talking
to intelligent people.—Charleston
News and Courier.

As a promoter of effective Feder-
alization of the American State
militia under the new Army Reor-
ganization act, Carranza is proving
to be almost invaluable.—New York
World.

The president of the woman's
party sniffs at the G. O. P. for be-
coming a State's rights party. It is
evident that she doesn't sense the

"I'M READY, UNCLE"

The Advocate's Melting-Pot

The longest day is in June, they say;
The shortest is December.
They did not come to me that way;
The shortest I remember.
You came a day with me to stay.
And filled my heart with laughter;
The longest day—you were away—
The very next day after.—Exchange.

Only a Memory.

She wore a long and roomy skirt.
Her necktie was thick and red;
She didn't paint, she wouldn't flirt.
But this dear girl has long been dead.
—Luke Mc Luke.

Aunt Caline Says:

The invites are
all out for the
wedding of Louise
Quarles an' Speed
Carr, which lives
out west. He
brung a friend of
his'n, which is a
Mr. Clutter, to
stand up with
him. Speed brung
him in to see us
one evenin' an'
then excused his-
self an' went
away leavin' the
man here. I put
in some o' the
time a-tryin' to entertain him
with a half a punkin pie an' a
plate o' doughnuts, but after that
I jest had to depend on talk. So
I says: "I understand you air to
be the best man, Mr. Clutter."
"Why, yes, ma'am, without no
doubt I'm the best man," says he.
"I could tie him up into a knot
with one hand tied behind me,"
he says. "An' he knows I'm the
best man an' Louie knows it, too,
but she always did like the little
whiffet. I do some myself," he
says.

The Way It Works.

Another pathetic little feature of
everyday life is a fat woman walking
value of dodging.—Rochester Her-
ald.

It's hardly fair to the Colonel;
they didn't turn an X-ray on Hughes
when he was tongue-tied.—Savan-
nah News.

Those who do not care to read
the whole Democratic platform will
find the two words "Woodrow Wil-
son" a convenient pocket digest for
handy reference.—Chicago Herald.

Instead of drifting into the tall
timber, Colonel Bryan will permit
himself to take the stump.—Wash-
ington Star.

The Colonel may be cheered by
the reflection that all our troubles
came from the rib.—Washington
Post.

PROTECT YOUR HOME

Your home should always be protect-
ed against infectious disease by having
ready for instant use a bottle of hy-
chlorite which is entirely free from acid.
It is a reliable and very effective an-
tiseptic which has a great many val-
uable uses right in the home.

Too many homes have been bereaved
because germs of sore throat, scarlet
fever and other infectious diseases
have not been destroyed. Too many
people have suffered with blood poi-
soning because no attention was given
a scratch, bruise or hurt.

From any drug store get a bottle of
hychlorite. It is a powerful yet pos-
itively safe germ killer and it nips in-
fection instantly. Better get it now.
General Laboratories, Madison, Wis.

two miles a day under the doctor's
orders and visibly hating the doctor
at every step.—Ohio State Journal.

And coming home with an ap-
petite like a house afire and putting
on more pounds than she walked off.
—Exchange.

Sorrow.

To part in anger was a sorry end.
To the long years in which I called you
friend.
More poignant, though, the sorrow that
was mine.
To find you were not, as I thought you,
fine.

Must Have Been a Blonde.

The scene was taken on the road
between Los Angeles and Santa Bar-
bara, at a spot where a bride had
actually been washed out by the
spraying rains.—N. A. June 14.

Oh, "g," what a difference your
absence sometimes makes.

Swat Early and Often.
If you do not swat the fly,
Swat it plenty hard and good,
You may find it by and by
Making doornails of your food.
—Italy McThee in Springfield Union.

If you do not swat the fly,
He'll be sure to rouse your wrath;
Your refreshing drinks he'll try
To be using for his bath.

That today is the summer solstice,
when the sun is at a point in its
course farthest north from the equator?
At this point in the ecliptic the
sun touches the tropic of Cancer and
is at the turning point of his north-
ern course. This is the longest day
in the year.

What Did She Say?
He asked her to go for a ride;
When he came and his Ford she espied,
She averted her head
And laughingly said:—

What did the young woman say?
Write the last line of this limerick
and send it to the Advocate before
6 p. m. Friday, June 23. The Ad-
vocate will give a dollar to the reader
who submits the line selected as the
best of those submitted.

A Little Fun

Their First Quarrel.
Mr. Newed—Oh, well, you wanted
me, Emily, and I wanted you. That's
about the way of it, my dear.

Mrs. Newed—But you wanted me
first, Jack, you know you did.—
Life.

Conversation.
"Interesting conversation?"
"Not very." One of those conver-
sations in which each takes credit
for phenomenal patience in an effort
to instruct the other.—Washington
Star.

Easily Read.
They were at an afternoon recep-
tion and were absorbed in watching
the finely gowned women.

"I think Mrs. Cameron is so
sweet, don't you, Helen?" asked
Inez. "You can read her character
in her face."

"Yes," replied Helen, sarcastical-
ly, "you can, if you read between
the lines."—National Monthly.

Malva fiber, which is produced in
considerable quantities in Cuba, is
being manufactured into shoes for
the laboring classes in that country.
It has also been found satisfactory
for weaving sugar sacks, and it is
believed that the finer fibres can be
used for making new fabrics for
wearing apparel.

In the present fiscal year the Uni-
ted States Bureau of Fisheries expects
to exceed all former records in the
number of fish distributed and may
pass the 5,000,000 mark.

Don't Let a Cold
Get a Good Start

The way to check a cold is to fight
it from the first. Even the worst
maladies often are easily conquered
if attacked early enough. Colds may
lead to asthma, bronchial troubles
and pulmonary affections. In the
treatment of these one of the first
needs is to build up body resistance.
Eckman's Alternative often has as-
sisted in such upbuilding. As a treat-
ment for the troubles named, it has
been used for more than twenty
years. And in many instances it has
effected lasting relief.
As with any other medicine, it
should be regarded only as a first aid
to right care, and hygienic living—
and a safe one. For it contains no
narcotics, opiates or habit-forming
drugs of any sort.
At your druggist's.
Eckman Laboratory, Philadelphia.

ANNOUNCEMENTS

The following candidates are an-
nounced for nomination subject to
the decision of the Democratic voters
at the primary election, August 8,
1916.

Representative to Congress,
WILLIAM A. ASHBROOK.
JOHN F. KRAMER.

State Senator,
J. HENRY MILLER.

Representative,
AUSTIN ORR.
L. C. DAVIS
JAMES J. HILL

County Auditor,
FRANK F. ORR.
SETH W. HAIGHT.
FRED S. WALTON.
J. S. CLIFTON, Etta Township.

Sheriff,
R. L. PATTON
JOE E. BROWNFIELD.

County Recorder,
CHARLES W. GUNION
WILLIAM A. FLEMING.
WAITER S. AYRES
ALBERT WARNER.
GEORGE L. MILLER.
DR. S. S. RICHARDS.
FRANK B. DUDGEON

Probate Judge,
B. G. SMYTHE
ROBBINS HUNTER
EUGENE MOORE, of Pataskala, O.

Clerk of Courts,
EDWIN M. JARASON.
LEO T. DAVIS

Prosecuting Attorney,
J. V. HILLIARD
B. F. McDONALD.

County Commissioner,
(Three to be Nominated.)
T. H. RANDALL.
PERRY E. TYGARD, Union Tp.
J. C. BUTT
GEORGE GARLINGHOUSE
T. B. HIRST.
JOHN E. MCCracken.
C. D. LAKE.
MANLY R. LOCKE

Republican Announcements

County Recorder,
JESSE T. REES

A Confederate veteran of Tusca-
loosa, Ala., who was wounded in the
knee in 1864, carried the bullet for
51 years. When recently the old
wound began to trouble him, an op-
eration was performed and the re-
covered bullet became a cherished
trophy of the proud old soldier's
prowess.

Society

Kinney-Zart.
Charles Kinney, a former Zanesville resident, now of Union Station, was united in marriage on Wednesday last to Mrs. Zart of Newark. The ceremony was performed in Covington, Ky., and Mr. and Mrs. Kinney will reside at Union Station.—Zanesville Times Recorder.

Mrs. Chas. Hinger. Mrs. Walter Adkins and Mrs. Chas. Hinger, Misses Elizabeth Hinger, Nellie Schoeller, Madge Kenett, Alma Shields and Louise Adkins formed a bowling party last night at the Pastime alleys.

Deaths Reunion.
The thirteenth annual reunion of the Deeds family was held at the Charles Deeds farm southwest of Granville on Saturday, June 17th. About 70 members of the family were present. Owing to the unseasonable weather of the past few weeks many were unable to attend. The frequent showers made it necessary to serve dinner under shelter. In the afternoon a short program was rendered by the children, followed by the business meeting and election of officers for next year. The Deeds family is one of the pioneer families of Licking county, having emigrated to this locality from Pennsylvania. The earlier members of this family were leading farmers but today we find younger generations following various occupations. Those attending the reunion from a distance were Marvin Deeds, of West Virginia; E. A. Deeds and son Edward Jr., of Dayton, O., and the following from Union county who came through in the morning by motor: Mrs. Elizabeth Green, Mr. and Mrs. Lee Brooks, Guy and Susie Green, Mrs. Blanche Teets and daughters, Mr. Rodgers and Mr. Hudson.

The meeting of the Royal Neighbors Sewing Circle will be postponed from Thursday to Friday afternoon, when it will be held at the home of Mrs. Leslie, 192 Elmwood avenue.

Mrs. Charles Bichorn delightfully entertained with a miscellaneous shower on Monday evening at her home in Prior avenue out of compliment to Miss Margaret Mullenix, whose marriage to Mr. Harry Scott will be solemnized this month. The evening was spent in music and contest in which Mrs. William Reynolds and Margaret Mullenix and Helen Kiley were the lucky contestants. At a late hour a delicious luncheon was served the following: Mrs. Thomas Roley, Mrs. Fred Collins, Mrs. William Reynolds, Mrs. Carl Stuffer, Mrs. Courdy, Misses Margaret Mullenix, Helen Sawyer, Beatrice Palmer, Helen Kiley, Hannah Yaus, Florence Sawyer, Rachel Jones, Kathleen Payne and Beatrice Stuffer. Miss Mullenix received many pretty presents.

Our Boys and Girls

The "stand up straight" warning is heard today just as it was heard years ago by your grandmothers. Straightness of back is important not only to the carriage, but also to the health. The child who is allowed to huddle into comfortable but slounchy postures, or to lean far over her books when studying is not only ruining her future posture in womanhood but is running the risk of spinal curvature, narrow, consumptive lungs, constricted digestive organs, and other ills.

There is much more chance also of the little girl's growing taller if her back is kept straight. If the back is held habitually straight even a short woman looks several inches taller than she really is. This straightness of the back includes its whole length beginning with the vertebrae at the neck. If the shoulders are held rigidly back and the neck shoots forward from the fifth vertebra, as so many necks do, the carriage will be anything but graceful.

When she writes or reads she must not huddle forward in her chair, she must be made to sit erect. For this reason children should not be allowed to read in very large chairs, for in order to bend the knees over the front edge of the chair an utterly wrong position of the spine is taken against the chair-back.

COMING EVENTS.
Safety-First train June 27.
Early carnival June 19-24.
Country C. E. Preparedness meeting June 12 to 23.

WHAT YOUR NERVES NEED

Whatever medication, whatever renewed strength and vigor can be imparted to the nerves must reach them through the blood. Dr. Williams' Pink Pills are a nerve tonic but they act on the nerves through the blood, enabling the blood to carry to the nerves the elements needed to build them up. Neuralgia, sciatica, sick headache and a number of more severe nervous troubles are properly treated by building up the blood with Dr. Williams' Pink Pills and are often entirely corrected in this way.

If you are nervous you can help yourself by refusing to worry, by taking proper rest, sleep and vacations, by avoiding excesses and by taking out-door exercise. For medicine take Dr. Williams' Pink Pills, the non-alcoholic tonic.

Sufferers from nervous disorders who have been taking treatment without benefit should investigate the tonic method. Write today to the Dr. Williams Medicine Co., Schenectady, N. Y., for the booklet, "Diseases of the Nervous System." It will be sent free on request.

Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail on receipt of price, 50 cents per box, six boxes for \$2.50.

Pith of the Sunflower Stalk.
The sunflower is cultivated to a considerable extent in central Russia, where every part of the plant is put to certain economic uses. The discovery of the extreme lightness of the pith of the stalks essentially increased the commercial value of the plant. This light cellular substance is now carefully removed from the stalk and applied to a good many important uses. One of its chief uses is the making of life saving appliances. Cork with a buoyancy of one to five and reed bark with one to ten has been used. The pith of the sunflower has a buoyancy of one to thirty-five. The latter can be used advantageously in the construction of boats and life preservers. A sufficient quantity can be worn on a person without any inconvenience. The pith of the larger sunflower stalks is used extensively as a substitute for other materials formerly employed in making moccasins for canoeing purposes.—London Mail.

Historic Water Clock.
In the days of the Roman empire the water clock was nothing more than a vase, with a small opening in the bottom, through which the water dripped at a known rate. This gave the name clepsydra, or water stealer, to the kind of clock which preceded both the pendulum and the spiral spring. Of all the clepsydric devices the most remarkable was the one sent to Charlemagne by Haroun-al-Raschid. It had twelve galls, behind which were many brass balls as the number of the hour indicated. As the gate opened the balls struck the hour by falling on a metal base. At 12 o'clock tiny horsemen issued from all the open gates, made the circuit around the disk, put the balls back and closed the gates, all by means of the delicate and complex mechanism that was run by water pressure. It was a sample of the state of culture in Bagdad in 780 A. D.—St. Louis Globe-Democrat.

How to Pronounce "Depot."
A student asked Dr. MacAlister, who was then president of Drexel Institute, how he pronounced depot.
"As if spelled station," replied the old scholar.
Depot is surely a dead one. In large cities the word is now never heard as applied to a railroad station. But it must have been otherwise fifty years ago.
The literature of America from the debut of the locomotive up to a generation ago was full of depots. A train never seemed to stop at any place other than a depot.
More than seventy years ago Longfellow referred to a fellow traveler who pronounced it to rhyme with teapot. The classic folks said darpo, but ordinary men and women said deppo.—Philadelphia Ledger.

Storm Often Misnamed.
It is a curious fact that what is generally known in some of the eastern states as a northeastern storm is in reality, says Popular Mechanics, of quite a contrary origin. Because a strong wind which frequently carries heavy rain is apparently driven from a northeasterly direction it is popularly assumed in a specific area that the storm originates somewhere in a northeastern zone, while in truth its real source is in the west or southwest. The explanation is that such a disturbance is merely an air draft of a barometric depression in the opposite direction. The storm is known as a "dareback" and is one of the conditions which cause a weather forecast to be difficult.

Absolute Reality.
What does our science, so sublime compared with the frailty of our means, so contemptible in the face of the boundless spaces of the unknown, what does our science know of absolute reality? Nothing. The world interests us only because of the ideas which we form of it. Remove the idea and everything becomes sterile, chaos, empty nothingness. An omnium gathering of facts is not knowledge, but at most a cold catalogue which we must thaw and quicken at the fire of the mind; we must introduce thought and the light of reason; we must interpret.—Fabre.

A Traveler's Tale.
The early explorers of the Brazils brought back some strange tales. One of the most curious of those which Guy Rothery recalls in his book on "The Amazons" is of a race of men "whose feet were turned the wrong way around, so that if any one attempted to follow in their tracks the pursuers were misled, actually receding from those whom they desired to catch up."

His Unreasonableness.
"Thunder and guns!" snarled Kidderpop. "I dropped my collar button and the baby swallowed it. Now, how am I going to button my collar?"
"Dear me! How should I know?" sweetly replied his wife. "Some men are so unreasonable!"—Judge.

And War Continued.
Miss Goodley—Bess says she's ready to make up if you are. Miss Cutting—Tell her I'd be ready to make up, too, if I had a complexion as muddy as hers.—Philadelphia Ledger.

What He Ran Into.
Redd—He ran into something the first day he got his automobile.
Greene—What?
"Debt!"—Yonkers Statesman.

If you set out to be the architect of your own fortune keep in mind that the building inspector will be along later.—Youth's Companion.

Admiral Jellicoe of the British navy was the champion gunner of the service when he was a midshipman.

Granville

(Special to the Advocate.)
Granville, June 21.—And still it rains and still the Broadway paving remains at a standstill. However, there are certain activities which do not depend upon the weather and one of these is the controversy between the Ohio Electric officials and the Granville town council. This has been satisfactorily compromised and settled, the O. E. to pay fourteen hundred dollars.

They will remove the Main street tracks and will use the present station as a terminal, with a warehouse to be constructed in the rear.

The Winter Picnic Club was entertained at luncheon at the home of Mrs. Robert Owen on Burgh street today. Mrs. Owen and Mrs. E. J. Dorsey were on the social committee and the menu was greatly appreciated by the guests.

Mrs. Clara M. Ogden and Mrs. Mary Dundee left this morning for a fortnight's visit at the home of Miss Ogden's son in law and daughter, Mr. and Mrs. Warren Morris in Cleveland. Mrs. Ogden will go from Cleveland to Quebec where she will spend the month of July visiting friends.

In the Granville column of The Advocate on Tuesday mention was made of the week-end visit in the village of Mr. Edward A. Deeds of Dayton who was designated as "the Denison trustee who recently subscribed \$75,000 to the million dollar endowment fund." Through some error the amount was given as \$7,500, a goodly sum in itself, but not quite good enough for this enterprising, generous alumnus who stands ready to "share profits" not only with his alma mater but also with every great civic advance in his own city and elsewhere.

Miss Monroe is visiting her cousin, Mrs. Dunmead at Adams Mills, near Dresden.

Miss Lilly and Myrtle Jones were guests on Tuesday, of Mrs. Diana Edwards in Columbus.

The King's Daughters will meet in convention in Granville on Friday with meetings in the Methodist church. Preparations have been made for their entertainment.

Arthur Jones who is taking his college course at Oberlin college, has returned to the home of his parents, Dr. and Mrs. J. D. Thompson in Broadway, for a part of his vacation.

A splendid assortment of first-class fiction has just been donated to the Granville Public Library by Dr. and Mrs. C. J. Baldwin.

Miss Grace Chamberlin, who spent last week in Cleveland in the bridal party of Miss Clara Loomis, and the week-end with relatives in Geneva, has returned and resumed her duties as librarian in the Granville Public Library.

Dr. Chancellor of Wooster, a member of the Denison summer school faculty, and his daughter, Miss Chancellor, who were guests of Prof. and Mrs. C. D. Coons at their home in Broadway, Monday and Tuesday, are located for the summer in South Cottage in West Elm street. Prof. and Mrs. Noble of Columbus are also domiciled in South Cottage during the summer term of Denison.

Mrs. T. G. Field entertained about a dozen girls and younger matrons at her home in North Pearl street. Tuesday afternoon for the pleasure of her daughter, Mrs. Jay Brown of Toledo, who has been visiting her old home for the past fortnight. The hostess was assisted by her niece, Miss Judith Nichol.

The death of Mrs. Amelia Bain Grover, widow of the late Theodore Grover, occurred on Tuesday evening at 7:30 o'clock, following a stroke of paralysis on Monday evening at about the same hour. Mrs. Grover was about to leave her home for the Methodist church to hear Mrs. Sheward's lecture on Monday evening when she was stricken. She remained unconscious until the end. She was a member of St. Luke's church, with a large circle of friends in Granville, where she has resided for many years, and where she has been identified with every good work in a quiet, unobtrusive way. Funeral services will be held at 2:30 o'clock Thursday afternoon at the St. Luke's church.

Obituary

Clement J. Braddock.
Clement J. Braddock, a well known retired carpenter, residing in West Locust street, died at his home this morning from hardening of the arteries. Mr. Braddock was born in this city, August 13, 1916. He had a legion of friends who will be sorry to learn of his demise. He is survived by his wife, two daughters, Minnie Braddock, one sister, Mrs. Agnes Zahn of Huntington, Ind., and a brother, John W. Braddock of this city. Funeral services will take place Friday morning at 9 o'clock from the St. Francis de Sales church and interment will be made in Mt. Calvary cemetery.

Funeral Today.
Funeral services were held this afternoon for Howard L. Loughman who was killed Monday night when his motorcycle struck the buggy of Miss Ethel Showman in Maple avenue. The services were conducted at the home in Elmwood avenue by Rev. Don D. Tullis and the body was taken to Brownsville for burial.

Kiss The wretched "Sunday Morning Bath" Soap

Java's Finest Temple to Buddha.
In his posthumous work, "Java," D. W. Campbell does minutely into the antiquities of Java, which consist of a number of ruins of temples and of other sacred edifices, formerly dedicated to the religion of the people, who, after first embracing Brahmanism, changed their faith (about A. D. 450) to Buddhism and a thousand years later to Mohammedanism. The greatest of the temples is Borobudur or Borobudur, as Mr. Campbell spells it. It is the finest example of its kind extant; in fact, Buddhism has left no such record anywhere else. Nobody knows exactly when the temple was built, but it is generally believed to be 1,200 years old, though some authorities date it as late as the thirteenth century. There are 430 images of Buddha in the temple. For centuries it lay buried and was unearthed by an Indian officer, Colonel Colin Mackenzie. Two hundred coolies a day were working for six weeks in clearing the riotous luxuriance of tropical bushes and creepers, but it was years before the temple was entirely uncovered.

One Gladstone Interview.
An amusing glimpse of the famous statesman Gladstone was once given by John Murray of the publishing house which issued many of Mr. Gladstone's writings and speeches. "The last time I was at Mr. Gladstone's house," said Mr. Murray, "I had breakfast early and alone, as I was going to Scotland. When I had finished I was told that Mr. Gladstone did not know that I was leaving so early and that he wanted to have another talk with me. I went to his bedroom—a very large room with a double bed in it. Mrs. Gladstone was in her dressing room."

"Gladstone was dressed in a nightgown with a brown shawl round him. He was lying flat on his face, his head at the foot of the bed and his feet on the pillows. In one hand he held a cup of coffee, and there was a book in the other. I shall never forget that interview and the comicality of the great lion head popping up as I went toward him."

Curious Marriage Custom.
Among the Kherrias of India there is a very curious marriage ceremony. Taking a portion of the hair of the bride and bridegroom in turn from the center of the forehead, the priest draws it down on to the bridge of the nose. Then, pouring oil on the head, he watches it carefully as it trickles down the portion of hair. If the oil runs straight on to the tip of the nose their future will be fortunate, but if it spreads over the forehead or trickles off on either side of the nose ill luck is sure to follow. Their fortunes told, generally to their own satisfaction, the final part of the ceremony takes place. Standing up side by side, but with faces strictly averted, the bride and bridegroom mark each other's forehead with "sindur" (vermillion).

Peculiar Occupations.
The trade of tooth stainer, followed in eastern Asia, is as odd a calling as any. The natives prefer black teeth to the whiter kind, and the tooth stainer, with a little box of brushes and coloring matter, calls on his customers and stains their teeth. The process is not unlike that of blacking a boot, for a fine polish is given to the teeth. The pigment used is quite harmless. In Arabia the trade of "gossiper" has many followers. The "gossiper" collects all the news, title-tattle, jokes and stories he can get hold of and then goes from house to house retelling them. If he has a good manner and can adapt his recitals to his audiences he makes a very fair income.

Curious Apache Belief.
The Apache Indians' religious belief prevents them from committing murder in the dark. If a dozen Apaches should discover a man sleeping by his campfire at night no amount of money would lure them to attack him until the sun came up. They believe that if they kill a man at night their own souls will walk in eternal darkness forever. Knowing this curious superstition, hunters, scouts, trappers and others traveling through the Apache nation in the old days moved about during the night and lay by in some safe retreat during the day.

Food For Thought.
"I listened to your speech with the greatest care," said the constituent to the congressman.
"Well, I think there was food for thought in it," said the congressman.
"You bet there was! It just made me think what a fool I had been to vote for you!"—Chicago News.

Very Necessary.
"Is it absolutely necessary that your chaperon accompany us tomorrow evening?"
"Yes, indeed. Auntie insists on going with us. She has never seen the show we are going to."—Detroit Free Press.

That Cool Million.
Wayne—I understand he married a cool million. Payne—Yes, but he's complaining now because he hasn't been able to thaw any of it out.—Pall Mall Gazette.

Auricular Evidence.
"My daughter, Gladys Mae, has become quite an elocutionist."
"Yes," peevishly replied the next door neighbor, "so I hear."—Puck.

Been There.
Church—You know the course of true love never did run smooth. Gotham—I know. I've taken all the high jumps.—Yonkers Statesman.

Forty per cent of the estimated available power of the United States is located in the Pacific Coast States.

Personal

Mrs. Corry M. Stadden and little daughter of Washington are guests at the Stadden home in Hudson avenue.

Miss Beatrice Thompson and Paulina Glassmeier will leave next month for New York where they will study art.

Miss Lois Barnett of Charles street has returned from a visit with Miss Clayton of Newark.—Zanesville Times Recorder.

Mr. and Mrs. William Wilson of Urbana will be the guests of Mr. and Mrs. E. S. Browne of Granville street tomorrow.

S. E. Alban, manager of the Stewart Bros. & Alward Co. left at noon today for New York City where he will attend the Edison dealers' convention.

Mr. Thomas Howarth of Springfield, O., and Mrs. Owen McCoy of Urbana, O., are visiting in the city guests of their mother and sister, Mrs. Susan Uffner and Mrs. Carrie Cant of Boylston avenue.

Fred Bobot who is attending Trocopius college at Lisle, Ill., is spending his vacation with his parents, Mr. and Mrs. Clement Bobot, 548 Daniel avenue.

Mrs. George W. Sapp has returned to her home 58 Union street after spending a few days with her parents, Mr. and Mrs. R. L. Curl of Piqua, O.

Asking Questions.
The first character of right childhood is that it is modest. A well bred child does not think it can teach its parents or that it knows everything. It may think its father and mother know everything, perhaps that all grown people know everything; very certainly it is sure that it does not. And it is always asking questions and wanting to know more. Well, that is the first character of a good and wise man at his work. To know that he knows very little; to perceive that there are many above him wiser than he, and to be always asking questions, wanting to learn, not to teach. No one ever teaches well who wants to teach or governs well who wants to govern. It is an old saying (Plato's, but I know not if his first), and as wise as old.—From "A Crown of Wild Olives," by John Ruskin.

Precocious Mozart.
At three years of age Mozart would amuse himself for hours together in picking out thirds on the piano with his wonderful ear. At four years he learned minuets and before six played some of his own compositions, actually starting on a concert tour with his sister at that age. Before three years had elapsed he had taken by storm four of the most important capitals in Europe—Vienna, The Hague, Paris and London. His reputation as a composer was established by the time he was only ten years old. Mozart fulfilled in maturity the promise of his early years, but at the age of thirty-five passed away, engaged on a requiem which he gradually learned was to be for himself.

India's Telegraph Plant.
There are many strange species in the vegetable world, and among some of the queerest may be mentioned what is called the telegraph plant. This plant hails from India, and each of its large leaves is composed of three portions. During the day the largest one stretches out toward the sun, so as to catch the full warmth and brightness, but when night comes on the big leaf turns down, while each of the small petals works day and night, moving, as it were, independently. They describe, in somewhat jerky movements, complete circles, thus deriving their name.

Her One Failing.
Frank was an ardent lover and, like most lovers, was of a rather jealous disposition. He was always worrying Ellen with silly questions, most of which she answered patiently.
The other day he reached the limit, however, when he asked:
"Why are you so sure that you will always love me just as much as you do now?"
Ellen thought it time to alter her treatment of his one fault.
"Because," she answered gently, "I am never able to cure myself of any of my bad habits."—London Answers.

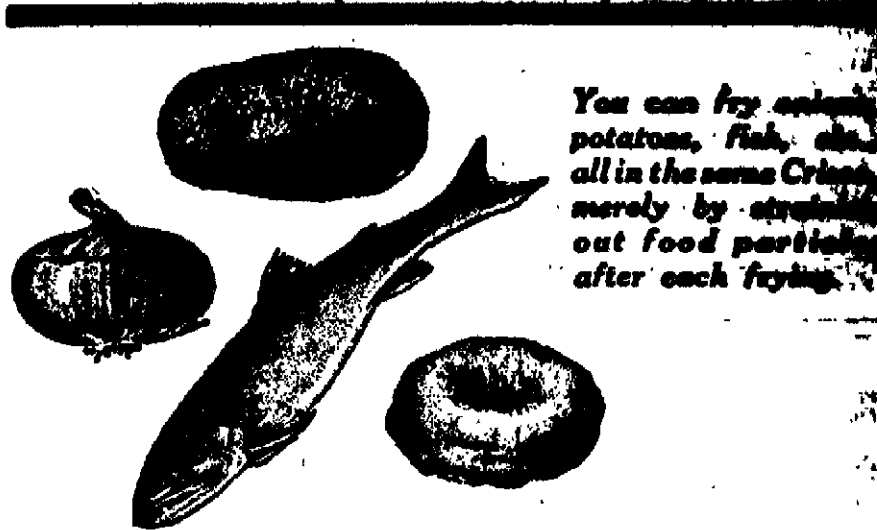

Qualified.
Tommy, with a determined look on his face, marched into the parlor and up to his pretty sister's ardent suitor.
"What's them?" he demanded, thrusting out a grimy hand full of small white objects.
"Beans," promptly replied the young man, with an ingratiating smile.
"He does know 'em, maw," bawled Tommy triumphantly to the adjoining room. "You said he didn't!"—Puck.

And None Alike.
"There are three kinds of switch tenders."
"Count 'em off."
"There's the man at the railroad crossing, the woman at the telephone office and the woman who wears false hair."—Richmond Times-Dispatch.

Asiatik Turkey.
Asiatik Turkey had a civilization thousands of years ago. The interior of that country is populated today by farmers to whom modern knives and forks are unknown. The spoons they use are of wood, and each family makes its own.

Important.
He—Does it matter what you wear tonight? She—Does it matter? I should say it does. Why, only my old friends will be there.—Judge.

Read the What Columns tonight.

An Interesting Experiment

Use Crisco over and over for frying all manner of foods. Merely strain the food particles from the hot Crisco after each frying. Crisco does not transmit flavors or odors.

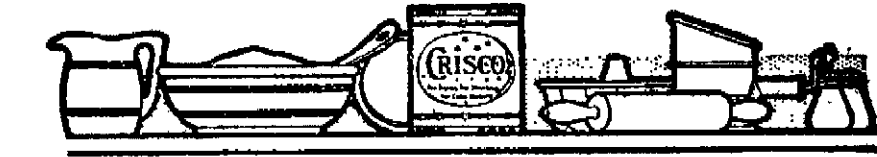

The test of frying fish, potatoes, etc., clearly illustrates Crisco's great economy. The use of Crisco does away with the bother of keeping different fats for the preparation of different foods.

You will notice that your fried foods lack that "lardy" taste; that the true flavor which hitherto has been hidden now delights your sense of taste; that Crisco foods are more digestible.

Crisco is a food fat, not merely a frying medium.

Crisco in place of butter gives richness at less expense, as it costs about one-half as much as butter. It actually is a richer shortening, 100 per cent pure fat; butter only is about four-fifths shortening. Salt is put in butter to keep it sweet; Crisco remains pure and fresh indefinitely without salt.

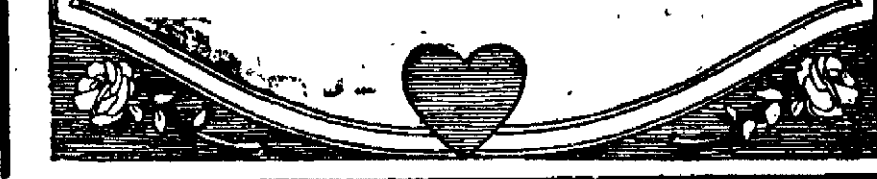

"And So They Wed."

Spring and Summer—Autumn and Winter, young people—sometimes their elders—will marry. Should you be favored with an invitation to the ceremony, and are perplexed as to a present, come to our store, where we will be pleased to show you our line of gifts suitable for the bride.

Milady's Boudoir

Inflamed "Beauty Spots."
"Beauty spots" are the names given to disfiguring little blemishes which seem to play havoc with complexions. You may lessen the inflamed appearance of a "beauty spot" by the application of a lotion, but you can only remove it and the cause, as well as the probability of a further appearance of the eruptions, by getting the blood into a healthy state.

Eat fruit at every meal and plenty of it. Drink copious draughts of cold water, fresh filtered. Take a constitutional and a brisk rub down before breakfast every morning. If you cannot find any work of your own help some friend who has more to do than she can possibly accomplish. So really interested in everything you do and do it with all your might. You never heard of a washwoman being nervous.

Nervous women are sure to have wrinkles, and you will never get rid of them until you get better control of your nerves. Massage will of course improve wrinkles, but you must help the massage by practicing facial repose. The sulphur treatment is very fine for removing dandruff. Following is the formula: To an ounce of sulphur add a quart of soft water, and during intervals of several days, agitate the

mixture repeatedly. After the sulphur has settled to the bottom of the receptacle, use the clear liquid. Saturate the head with it every morning, and in a few weeks every trace of the dandruff will have disappeared. The hair will become soft and glossy, and there will be no more return of the old trouble. This remedy, however, will darken light hair.

Everyday Etiquette

"What is the correct length of time one should wear mourning after the death of one's brother?" inquired Mary.
"One usually wears mourning one year for a brother, deep mourning at first and lighter after. This is just a matter that one adjusts to one's own salience since deep mourning is, as such, as much as formerly," said friend.

Mrs. Zoe Mitchell and son left for Virginia today to spend summer with relatives.

Trimmed Hat Sale at this week. Prices very low. CLOUSE & SON, 42 E. Main St.

PACIFIC FLEET READY TO DASH TO SOUTHWARD

(Associated Press Telegram)
San Diego, Cal., June 23.—The flotilla of torpedo boat destroyers, consisting of the Hull, flagship of Lieutenant W. W. Bradley, flotilla commander; Hopkins and Truxtun, are in readiness today for a dash down the Mexican west coast to join other units of the Pacific fleet which either are already in Mexican ports or on their way. The United States cruiser San Diego, flagship of Admiral Winslow, departed yesterday, presumably for Guaymas or Mazatlan, closely followed by the Cruisers Pittsburgh, flagship of Rear Admiral Fullam, commander-in-chief of the Pacific reserve fleet, and the Colorado.

Authorities here on naval matters said that Admiral Winslow, commander-in-chief of the Pacific fleet, could blockade effectively within a short time, every port on the Mexican west coast if events rendered such action necessary. It also was reported that Admiral Winslow would place Rear Admiral Fullam in command of the naval forces operating south of Mazatlan to Salina Cruz.

The armored cruiser Maryland, which departed from the Puget Sound navy yard yesterday is expected here in a few days. The cruiser South Dakota, scheduled to leave the Puget Sound navy yard today, is to take aboard every available marine at the northern port, call at San Francisco for the same purpose and proceed to San Diego, it was announced.

The disposition of the Pacific fleet in Mexican waters will be substantially as follows by Saturday morning, it was learned today:

At San de Cabo—Destroyer Hopkins.

At La Paz—Destroyer Hull.

At Guaymas—Cruiser Cleveland, supply steamer Glacier.

At Topolobampo—Gunboat Yorktown, destroyer Truxtun.

At Mazatlan—Cruiser San Diego, Gunboat Annapolis.

At Manzanillo—Cruisers Pittsburgh, Colorado Albany.

At Salina Cruz—Cruisers Denver, Raleigh.

At Acapulco—Cruiser Chattanooga.

En Route — Cruiser Milwaukee, from San Diego; Cruisers South Dakota and Maryland from Puget Sound.

HANOVER

Dr. and Mrs. Jesse Hilleary of Du Bois, Pa., are the guests of the former's mother, Mrs. E. F. Hilleary.

Mrs. G. E. Willard of Newark, spent last Tuesday with her son, J. C. Willard and family.

Mr. and Mrs. Bird Petry and son Edward of Ashland were guests of Mr. and Mrs. John Edwards and family Saturday.

Miss Adeline Welch of Delaware is spending her vacation with her grandmother, Mrs. Beattie Welch.

The Misses Pearl Shipley and Eva Peters of Johnstown are visiting Mr. and Mrs. Roy Higgins.

Mr. and Mrs. Charles Niebel and daughter Ruth of Newark called on Mr. and Mrs. M. R. Catt Sunday, Miss Ruth remaining for her summer vacation.

Master Crawford Shaffer, who was operated on at the City Hospital at Newark Monday, is improving.

Mrs. John Edwards and daughter Dora called on Miss Mirenda Dickey Sunday evening.

Mrs. Bennett and daughter Addie called on Mrs. A. L. Totten and family Friday afternoon.

ONLY DAUGHTER OF 1812, NOW IN LICKING COUNTY

MRS. ELIZABETH HICKEY Metz, 75 North Second street, is one of 19 real daughters of the National Society of United States Daughters of 1812, in the state of Ohio and the only real daughter among 13 members at large in Licking County. She is the widow of the late Henry A. Metz.

Mrs. Metz is listed in a recent issue of the National Society's magazine as the "real daughter" of U. S. D., of 1812, in Licking county. She is the daughter of the late William

MRS. ELIZABETH HICKEY METZ. Hickey, of Mary Ann township, who was born in Frederick County, Virginia, near the city of Winchester, August 4, 1797. He died September 6, 1850.

Mr. Hickey served as a private under Captain David Van Meter and Col. Henry E. Coleman in the war of 1812. He was honorably discharged in December, 1814.

The object of the National Society, of which Mrs. Metz is a member, is to perpetuate the victories and to cherish the memories of all those who took part in the war of 1812. Also, to collect and preserve books and data relative to that period; to erect monuments to its heroes; to encourage historical research, to aid the General Society in all benevolent projects, especially in that of promoting the erection of a house or home where the descendants of the zealous patriots who protected American Independence, and who have need of such a home, where they can be sheltered from the storms of life; and, in general, to strive to be a factor in educational, moral and patriotic progress.

Mrs. Metz was invited to attend the adjourned annual meeting of the state society which was held today at the Women's Club, 3535 Euclid avenue, Cleveland.

SHOWS ARE BEING WELL PATRONIZED

For those who like thrills, the big autodrome will furnish them in several different varieties. The drama is one of the largest portable ones in the country and the performance given in the Rutherford track is by far the best to be seen with a carnival. Four of the best riders to be had are seen at every performance and the skill and daring they display holds audiences spellbound with amazement. "Reckless" Rickards and "Dare Devil" Jack Le Beau are to be seen in the "dip of death" feature trick and fancy riding that seem incredible and other death defying feats that are unbelievable unless seen. Altogether it is an entertainment that sends the audience

GEORGE HUSSEY.

out wondering and talking and is sure to please the patrons here.

Another feature that is popular is the plan of issuing an invitation to any local riders who have had experience to try their skill on this track and several matched races, during the week usually results as the management bar no one at any time.

Of course the "Whip" is the big feature ride, as it is new and consequently a novelty. Newark has been fortunate in having one or more of these here with carnivals earlier in the season and the people here are more or less familiar with it, but if one is to judge by the manner in which it is patronized it has lost none of its popularity and will be one of the best patronized attractions during the week.

All of the rides with the Rutherford shows are of the highest class, the merry-go-round, being a fine three abreast, with thousands of lights and mirrors and the Ferris wheel, a latest model Bli, both of which are operated in careful manner by competent operators and accidents are a thing unknown on the Rutherford rides.

The Lyric.
George Hussey, the ventriloquist, and his famous mechanical walking figure, is now at the Lyric. In addition to the walking figure, Mr. Hussey operates two character figures, an old Scotchman and a new boy. This is a splendid entertainment for ladies and children.

The Auditorium.
Robert Mantel and Genevieve Hammer will be seen at the Auditorium today only in what is said to be one of the strongest plays screened by the Fox company in some time.

The scenes of the Paris slums in the William Fox production, "The Spider and the Fly," are exact duplicates of certain spots in the poorest quarter of Paris. J. Gordon Edwards, director of the picture, was in Paris a few years ago. Among other places, he visited the Paris slums. He was so impressed with their filth and squalor that he decided to show them on the screen.

HIDING

IN MOUNTAINS IN MEXICO FIVE AMERICANS FEAR NATIVE POPULACE.

With These Exceptional Exoduses of Americans From Chihuahua Is Practically Completed.

(Associated Press Telegram)
El Paso, June 21.—Five Americans are in hiding in the mountains in the vicinity of Parral in southern Chihuahua, fearing to attempt to make their way to the border, because of the feeling of the native populace, according to reports reaching here today. The men, employees of the Alvarado Mining and Milling company of Parral, recently started toward El Paso, but were obliged to seek refuge in the mountains. In the party are T. G. Hawkins, Jr., A. W. Morris, R. C. Higley, H. A. Bulck and H. W. Collins. Officials of the company here express the belief that Mexican friends could be depended upon to afford them protection.

With the exception of these five, the exodus of Americans from Chihuahua was practically complete today, with the arrival of the eighth remaining members of the colony in Chihuahua City. All of them told stories of a shortage of food and of increasing anti-American sentiment. Much interest was aroused among El Pasoans, many of whom have large holdings in Mexico, at the dispatches from Mexico City, at the local Mexican consulate. These said, in substance, that a decree had been issued by the de facto government, holding that any foreigner acquiring real estate in Mexico, either by purchase or by consent, must renounce first his allegiance to his native country and register himself as a Mexican citizen. It further ordered that any person seeking to transfer his property to a foreigner must obtain permission from the proper authorities.

SHORT SESSION OF CITY BOARD OF EDUCATION

The city board of education held a short business session last evening at their office in the High school building with President Wm. E. Miller presiding. The other board members, J. M. Mitchell, S. W. Haight, W. C. Christian and Clerk Ben Montgomery were all present.

After the reading of the minutes of the last meeting the following bills were allowed and ordered paid: Oren J. Barnes, supplies, \$5.70; Milton Bradley Co., supplies, \$4; F. W. Devoe Co., paste, \$6; Dearborn Duster Co., brushes, \$10.80; Leon Pfeiffer, labor, \$7; Will Handel, labor, \$6.65; Wehrle Realty Co., 20 loads of dirt, \$6; Hooper Frankline, insurance, \$3.50; Licking Laundry, \$2.78; Newark Electrical Co., tape 20c; Crane-Krieg Co., supplies, \$13.95.

Joseph Priest was elected janitor of the Woodside school at a salary of \$50 per month. He succeeds Allen Mitchell who was appointed janitor of the high school two weeks ago.

Mr. Cliff Frye was elected treasurer of the school board funds for a period of one year.

Fifty seats were ordered from the Cleveland Seating Company and after the committee on repairs for the various buildings had reported the board adjourned.

MASONS WILL GO TO PLEASANTVILLE FOR A DEDICATION

Preparations for attending the Masonic dedication at Pleasantville on Saturday of this week by St. Luke's Commandery and the members of the Blue lodges have been about completed. All that is necessary now is to have a few more automobiles as the trip will be made that way. Already twenty-one autos have been promised for the occasion and they will leave about eleven o'clock. The commandery has been called to meet at 10:30 in order to get the members there in time. The Blue lodge members will go at the same time. There will be no transportation charges as the Commandery and Acme lodge have provided for that. It is earnestly desired that there be a good turnout.

Drive Uric Acid Poison From Your System

Ambition Salts

This is the remedy that will make your eyes bright, your skin clear, your stomach strong, your blood pure, your liver and kidneys healthy. It's worth while to feel ambitious, to have the energy that makes you go to work eagerly, to accomplish to your satisfaction what you have to do, to feel the glow of health and strength. AMBITION SALTS will start you right in the morning—will cleanse your whole system of uric acid poison which is responsible for indigestion, biliousness, headache, acid stomach, rheumatism, liver and kidney troubles.

If you want to feel like your old, real self, go today and get a bottle. Your money back on the first bottle purchased if it doesn't do all we claim for it. You will feel better after taking it once, and after using it a short time, you will forget the ailments that have made your life a burden.

AMBITION SALTS cost but fifty cents at T. J. Evans and dealers everywhere. Mail orders filled, charges prepaid, by the Wendell Pharmaceutical Company, Inc., Syracuse, N. Y., manufacturers.

COMPANY

OF 200 CANTON AUSTRANS, VETERANS OF EUROPEAN BATTLEFIELDS

Offer Themselves for Border Service—Young Italian Found a Way to Enlist.

(Associated Press Telegram)
Canton, June 21.—A company composed of over 200 young Canton Austrians including many men who have had actual war service on the European battlefields are ready to serve as volunteer troops on Mexican border service. They have offered their services to Captain Harry Hazlett of Company C, O. N. G., and through him direct to Governor Willis.

Nick Vinczi, 21, an Italian, appeared at the recruiting office and asked in broken English to be allowed to enlist in Company C, Eighth O. N. G. He was refused on grounds that he was not a citizen and instructed to secure naturalization papers. In 15 minutes he returned with a document which showed he had declared his intention of becoming a citizen.

"It's all right now, I have the papers! I'm going to help Uncle Sam kick the Mexicans," Vinczi said to Captain Hazlett. He took a medical inspection and was started in to drill.

'The Store of Newark Where Quality Counts'

MINE RESCUERS' WORK SHOWN ON SAFETY SPECIAL

Accidents in the mines and loss of
life among the men who toil thou-
sands of feet beneath the earth, when
reported in the press attract gen-
eral interest in accordance with the
seriousness of such catastrophes.
Such reports are usually accompa-
nied by a statement that rescuers
from the Bureau of Mines have been
sent to the scene to render aid to
the victims.

Hitherto little has been known
of the work of these rescuers, who,
fitted out with special equipment,
enter the bowels of the earth obli-
vious to the danger surrounding them
and concerned only with bringing
relief to entombed or injured men.
How these government forces work
with the systematic training of a
soldier is shown in the exhibit fit-
ted up in the car devoted to the Bu-
reau of Mines, which is part of the
"Safety First Special," which will be
in Newark, at the Baltimore and
Ohio depot.

Equipped with a helmet which in-
sures perfect respiration to the res-
cuer in gas-filled chambers of the
mines, and where fire rages, the men
can remain at work indefinitely so
far as their breathing is concerned.
Before the relief agent puts on the
helmet he takes a deep breath of
fresh air, and this is purified and
cooled systematically during the
time he is at work. Safety lamps
are a part of the apparatus, so de-
signed that the possibility of explo-
sion by ignition from the lamps is
entirely removed. Special medical
kits are a part of the rescuers' equipment and emergency relief is
rendered before removing the in-
jured men, where conditions justify it.

The men in mine rescue work are
chosen under special regulations
which call for robust, athletic young
men; and they possess the same de-
gree of fearlessness displayed by po-
lice officers and firemen in the dis-
charge of duty. Some of their ex-
periences would furnish many a
thrilling theme, as they are chosen
from all walks of life where courage
is a foregone conclusion.

Swinging in a small cage which
the mine rescuer carries in his hand
or has strapped on his belt is a can-
ary bird. But the bird has been
called the Guardian Angel of the res-
cuer, and unlike the pet canary
which flutters and chirps in the sun-
shine, the bird carried into the mine
is trained as to his sense of smell
rather than for his vocal ability. The
little canary, it has been discovered,
can detect the existence of poisonous
gases quicker than any other living
creature; and the rescuer feels safe
that conditions are safe for the
miners so long as the bird retains
his faculties. On the other hand, if
the bird is drowsy or is overcome
the rescuer knows that danger is
lurking. The bird is not allowed to
succumb to asphyxiation for as soon
as the effect of the gas is noticed he
is resuscitated by means of oxygen
which is administered. The cage is
equipped with a small tank of oxy-
gen which protects the life of the
bird.

Rescuers who have taken part in
some of the most important mine
disaster work in the country accom-
pany the train and will explain the
conditions under which they work
beneath the earth. Should such a
disaster occur it is probable that
these men would be sent to take
charge of the relief work.

DAYTON TAKES ON A MILITARY AIR; TROOPS DRILLING

(Associated Press Telegram)
Dayton, June 21.—Recruiting for
the Third regiment is going steadily
ahead here. The arrival of the
Cleveland Grays last night added to
the military atmosphere of the city
and "rookies" are being given a
preliminary training on the streets
during the day. Colonel Hubler,
commanding the regiment, considers
it unlikely the companies will move
to Columbus before Saturday. Co.
C of colored troops, left early this
morning for Columbus, being the
first of the local companies to be
called away.

U. S. DIPLOMAT DEAD IN PARIS

(Associated Press Telegram)
Paris, June 21, 5:30 a. m.—Cap-
tain Frank H. Mason, former Amer-
ican consul general, died here to-
day. He was 78 years old.

Captain Mason resigned his office
as consul-general in June, 1913,
after having served 23 years in the
consular service. After visiting his
home in Ohio he returned to France
and became chairman of the Amer-
ican ambulance at the outbreak of
the war. Captain Mason was ap-
pointed to his post by President
Roosevelt in 1905. Prior to that he
had served six years as consul-gen-
eral at Berlin.

DRESDEN IS PATRIOTIC.
Dresden, June 21.—This town will
furnish a company of infantry for
duty in Mexico or along the border,
if President Wilson issues a call for
volunteers. There is much talk
among the young men favorable to
such a move and there is little
doubt that a company could be re-
cruited from this vicinity.

DESPERATE ATTEMPT
TO END HIS LIFE.
Dresden, June 21.—Rescued from
certain death at the end of a strap
with which he attempted to end his
life in a barn, Ben Lacey, 30, is ly-
ing in a delirious condition at the
home of his father, John Lacey,
here. Three men were required to
hold him in bed until he was strapp-
ed down. He was nearly dead
when found with his feet only an
inch from the floor. He was des-
pondent because of failure to obtain
employment.

**LIQUID

25 Years Ago

(From Advocate, June 21, 1891.)
The residence of Mr. J. F. Linga-
felter was visited by burglars last
night. They effected an entrance by
way of the front door and succeeded
in looting the house of valuables to
the amount of one hundred dollars
or more. Among other things were
two good suits of clothes belonging
to Mr. Lingafelter and his best
shoes.

Mr. M. Sachs left this morning for
a continued trip on the continent of
Europe.

Eddie Blake has opened an Ice
Cream parlor in connection with his
fruit stand.

15 YEARS AGO

(From Advocate, June 21, 1901.)
Dr. O. P. Sook and S. E. Rhoads
were in Mansfield yesterday exam-
ining the new automobiles that are
being built for them by the Hubbs
and Beardsley Manufacturing com-
pany. The autos will be delivered
soon.

Attorneys Charles Follett and W.
D. Fulton were engaged in a case in
the court in Columbus yesterday.

Mr. and Mrs. Fred L. Craig and
children of Mt. Vernon are the
guests of the family of Robert
George on Lawrence street.

The World War a Year Ago Today—June 21.

Germans captured Rawa-Ruska,
a railroad center northwest of
Lemberg and guarding that for-
tress.

The German newspaper Berlin
Tages-Zeitung was suppressed on
account of its hostile tone to-
ward the United States on the
Lusitania case and the supply of
munitions to Germany's enemies.

The new chancellor of the Brit-
ish exchequer, Reginald McKenna,
introduced in the house of
commons his plan for financing
the war by issuing 4 1/2 per cent
bonds in small denominations, to
be sold through postoffices.

WEST VIRGINIA IS MOBILIZING

(Associated Press Telegram)
Charleston, W. Va., June 21.—The
mobilization camp was opened at
Kanawh City, three miles from here,
today, with the arrival of companies
comprising the second infantry,
West Virginia National Guard. The
first to reach here were the two
companies from Charleston and the
whole regiment was expected to be
in camp by shortly after noon.

Good Printing is as essential to your bus-
iness as a clean store. Let us show you

The Message of a Check

You have heard that "Money Talks." Has it ever occurred to
you that the speech of ready cash is less forceful than the message
of a check?

When you pay cash, those greenbacks say to the merchant, "You
don't know whether our owner ever patronized you before. You
know nothing of his credit elsewhere. We may represent a for-
tune or his last cent. But take us and forget him." And that is
just what he does.

If you pay BY CHECK this is the message the storekeeper gets:
"I represent your customer's bank. He has a good standing there.
That means more money, more trade. It will pay to satisfy him."

If you do buy often at the same place, the merchant knows it and
your checks have established your credit and friendship with him.
Why not send YOUR creditors the message of the check?

6 SONS WEAR UNIFORMS OF U. S. SOLDIERS

(Associated Press Telegram)
Baltimore, Md., June 21.—Of the
fourteen sons, all living, of Mrs.
Wolfe, of this city, six now wear the
uniforms of United States soldiers.
Two are with the Twelfth cavalry in
Mexico, one is a member of the
Twelfth artillery stationed in Ver-
mont, and three are members of the
Fourth regiment, Maryland National
Guard.

Mr. I, a fisherman in Hawaii, has
the shortest name in the world. He
wins over Gen O of Mexico by a valid
technicality, as headline writers can
attest.

**EAT LESS MEAT
IF BACK HURTS**
Take a glass of Salts to flush Kidneys if bladder bothers you—
Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation. The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jod Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will be then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders. Jod Salts cannot injure anyone; makes a delightful effervescent lithia-water-drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

**SAGE TEA KEEPS
YOUR HAIR DARK**

It's Grandmother's recipe to bring back color, youthfulness and lustre—Everybody is using it again.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance and prolongs its youth. Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

**DENISON LOSES
NINE ATHLETES
BY GRADUATION**
Granville, June 23.—Nine Denison University athletes have stepped over the precipice of college athletics and are sliding downward into the chasm of intercollegiate sporting history. Two of them won distinction as all-Olio football or basketball players while in college. Thiele and Ladd are all-Olio football men. Stankard, Marsh, Yeakum, Chase, Harrington and Willis have struggled on a Denison athletic team for the last time. Over the head of "Butch" Thiele, the Dayton player, however, looms that class that made the first three or four in Ohio. He won an all-Olio end position on every city football eleven. Denison in the Buckeye state for the past two years. And so it was in basketball. He was given the center job for two consecutive seasons on the all-Buckeye college quintet. This winter sport writers united in giving him the captaincy of the first team, along with the center job. "Don" Ladd, all-Olio quarterback this year, is another notable to disappear. Denison has played in the field general's position for three seasons. He has won basketball and basketball MVP's also. Three years of his time has been put in on the basketball nine, where he occupied the center job. Not only has Thiele been prominent in football and basketball, but in track and baseball. He has been a member of the last named teams for the past three seasons, a weight man on the track squad and a first-sacker on the ball club. Hickman is Denison's quarterback. He leaves after three years' work behind the line. He is a quarter-mile on the track team. Yeakum was captain of the ball nine this year. He has pitched two seasons. Stankard has played a creditable game at center on the football team. He succeeded Ladd here and was always reliable. Willis was a three-year lineman and a pole vaulter. He holds the college pole vault record. Chase, Marsh and Harrington are words of honorable mention. Chase was a middle distance man on the track team for two years. Marsh is a football and basketball player. He played two years on the line and the same amount of time in the outfield. Harrington played a great guarding game on the football eleven last fall and received honorable mention from many writers.

**MOTORCYCLE SPEED
BOYS WILL BURN
COLUMBUS TRACK**

Mobile and quite ready for a battle of speed and daring courage over the track at Columbus have track boys some twenty of the world's greatest riders of high-powered motorcycles. They will fight next Sunday afternoon in a series of events, the principal one being the half-mile "Champion Spark Plug" trophy sweepstakes. While the boys' picked guardians are resting quietly in their quarters of the Upper Arlington district, a few miles to the southeast the roar of the flying motorcycles will be heard. This meet will be the second of the year in Columbus, the first having occurred on June 1 under the direction of the International Association of Motorcyclists. Sunday's field of starters will be one of even more class than possessed by the one of the early June inaugural. Ray Davidson, winner of the International championship, is to be in the list again and hopes to smash through without a stop as he did when he won the victory recently. Bob Perry, winner of the Detroit hundred-mile on June 11 is to be in the race against Davidson. Perry did not start on June 11 because of other riders, like Perry will make their 150 Columbus debut next Sunday.

BOWLING
The Arcade Market team won three straight games from Fleck & Son's team last night in the Pastime Quinette League games on the Pastime alley. Fleck had high score and high average. The last game was forfeited. Tonight Sprague Grocery vs. Leist & Kinney.

Hats Off to the Flag!
If any reader of these lines has ever visited a foreign country, has been a stranger in some far away place over the ocean, he may remember the feeling of joy, of pride, that came to him when he first saw the stars and stripes floating over the consulate. One writer says he remembers some years ago walking down the Bois de Boulogne in Paris. Just ahead of him was a regulation man of the world, and yet something about him indicated that at one time or another he had lived in America. He walked slowly down the avenue until all of a sudden from the second story of a building at the right there were flung to the breeze the silken folds of a beautiful specimen of the American flag. The man of the world saw it. In a second his silk hat was off his head, and despite the on-lookers he gave three as lusty cheers for the stars and stripes as ever came from an American throat. As the writer reached him he turned about and with tears rolling down his cheeks said, "I did not know that the sight of anything could touch me like that."

London's Last "City Post."
Elkanah Settle, a copy of whose rare "Angusta Triumphans" is in the Guildhall Library, is forgotten by an ungrateful posterity, but was once a prominent personage in the literary world at London and considered a serious rival to Dryden, by whom he is satirized as "Doeg." He was the last of a "city poets," retained at a salary of £10 a year to perpetrate triumphal odes for lord mayor's day, and similar pageants, and his verses, as Wilkes observed to Dr. Johnson, matched the queerness of his names. Settle was a most prolific poetaster, but somehow never prospered, though he repeatedly turned his coat in religion and politics. He was reduced to playing "the green dragon" at Bartholomew fair and died a poor brother of the Charterhouse.—Westminster Gazette.

Polar Bears in the Water.
Polar bears enjoy a bath for the sake of cleanliness as well as for swimming and hunting. At a certain zoological garden when the polar bear's bath was being filled with fresh water it would stand with its mouth open, letting the water run through the jaws, and when the bath was full would play all kinds of tricks, reeling in the water. One of its antics was to float on its back in the water and then catch hold of its heels with its forepaws and roll over in a ball. It would also turn over backward on the edge and fall in with a big splash.

**P.A. wins friends without
any side inducements—**

without any coupons or premiums! *The inducement to buy Prince Albert is quality!* Neither national nor state restrictions on the use of premiums or coupons in any way affect the sale of Prince Albert because its policy has always been for *quality!* Coupons or premiums have never been offered as an inducement to smoke it!

Prince Albert is made by a patented process that cuts out bite and parch and lets men smoke pipe-full after pipe-full or the makin's until the gong sounds, without a kick back or a complaint!

PRINCE ALBERT
the national joy smoke

So it's up to every red-blooded man to jump the boundary line between himself and smoke happiness and know just what all this jimmy-pipe-joy-talk is about!

Men *all over the world* are today smoking Prince Albert because it meets their taste; because it gives them *real* tobacco enjoyment they have never found before!

Don't you realize that if Prince Albert, in a few years, has made three men smoke pipes where one was smoked before, it certainly has the call on you—at least for a try-out!

Why, that's only being fair to yourself!

The Three Londons.
Roman London lies buried about eighteen feet below the level of Cheap-side. In nearly all parts of the city there have been discovered tessellated pavements, Roman tombs, lamps, vases, sandals, keys, ornaments, weapons, coins and statues of the Roman gods. When a little over a century ago deep sections were made for the sewers in Lombard street the lowest stratum was found to consist of tessellated pavements. Many colored tiles were found lying scattered about, and above this stratum was a thick layer of wood ashes, suggesting the debris of charred wooden buildings. While building the exchange workmen came upon a gravel pit full of oyster shells, bones of cattle, old sandals and shattered pottery. Two pavements were dug up under the French church in Threadneedle street, and other pavements have been cut through in several parts of the city. The soil seems to have risen over Roman London at the rate of nearly a foot a century. Still further must the searcher dig to find the third London, the earlier London of the Britons.—London Chronicle.

Saloniki a Sty of Squalor.
Saloniki resembles most ports of the eastern Mediterranean in being a picture of beauty from a distance and a sty of squalor near at hand. It is, in fact, a slatternly Levantine town in a beautiful medieval setting, comely in the mass, unpleasant in detail. As you survey Saloniki from the water it has a dignified air that accords well with its historical renown, being set in stately isolation upon the steep slopes of its bare hills and girded by ruined but still massive walls that rise to a great Venetian citadel on the landward side. Graceful white minarets that the Turks built are sprinkled about among the houses, and the quay, that is the chief street of the town, lined with picturesque Greek sailing craft, stretches for a full mile along the water's edge. But ashore, shut in by the narrow street of the "Frank quarter," your vivid impression of squalor and slovenliness soon makes you forget the graceful picture from the sea.—G. Ward Price in London Times.

Old July 4 Toasts.
In 1814 in Philadelphia some interesting Fourth of July toasts were drunk. General Barker proposed "Thomas Jefferson, author of the Declaration of Independence; may the spirit that prevailed that day be speedily revived." Mr. Mintzer proposed "The memory of General Pike; long life to his friends and extinction to his enemies." G. W. Bartram proposed "The idol of democracy; not to be found in the island of Elba nor at the court of Berlin as a British spy, but in the virtue and reason of every honest American."

Fell From Cherry Tree.
George Williams, 132 West Main street, is slightly improved today after lying in a semi-conscious condition most of the night from injuries received yesterday when he fell from a cherry tree at his home. He struck on his head and shoulders on a concrete sidewalk. Dr. J. W. Hornby attended him.

Mr. Deeds' Gift to Denison.
In yesterday's Granville letter to the Advocate a typographical mistake made it appear that Mr. Edward A. Deeds' gift to Denison university was \$7,500. As correctly stated in the Advocate of last Thursday Mr. Deeds' generous gift was \$75,000.

Joy at Headquarters.
Firemen at headquarters smiled happily this morning because "Mollie," the black and white pet cat which has been missing for several days, is again on duty. A paragraph inserted in The Advocate last night telling of Mollie's absence and of the grief which resulted, brought the pet back home. Mollie had wandered across the square and took up his abode at the Ankole barber shop and Mr. Ankole notified the firemen.

Olives and Bread.
Found for pound, ripe olives, so far as total value of heat unit is concerned, contain almost as much food value as bread, and in the case of very large olives the value may be increased to approximately the same as that of bread.

MILLINERY SALE

All Trimmed and Untrimmed Hats will be closed out at the lowest possible prices. (Commence tomorrow. Many are fresh new sample hats. Clouse & Schauweker, 42 Hudson avenue. 6-19d3t

Read The Advocate Wants tonight.

after reading the notice in last night's paper. Mollie was misnamed early in his career but the name still sticks despite his own.

Missionary Meeting.
The missionary department of the Plymouth Congregational church will meet Thursday afternoon at 2:30 at the home of Mrs. I. N. Wilson on the Mt. Vernon road.

Improvement League.
The Parish Improvement League will hold a meeting this evening at 7:30 at their usual meeting place, all members are urged to be present.

Youths Before Court.
As a result of numerous complaints coming from the vicinity of Maple avenue, eight youths were picked up last night and taken to the city prison on charges of loitering. They were not locked up, Mayor Bigbee was called to the city prison shortly after they arrived and gave the young men a lecture, suspended fines of \$1 and costs and allowed them to return to their homes.

Officer \$25 Reward.
Charles Hager Jr., whose Ford roadster was stolen Monday night in East Main street, has offered a reward of \$25 for information which will lead to the recovery of the car.

Drunks Fined.
Four drunks arrested last night drew fines of \$5 and costs in police court this morning.

Harrington Pleaded Guilty.
Thomas Harrington of Mt. Vernon, arrested yesterday on a charge of stealing four sections of garden hose from as many different places, pleaded guilty when arraigned before Mayor Bigbee this morning. He agreed to return the hose and was let off with a light sentence, fines totaling \$15 and the costs being assessed.

L. O. O. M.
Licking Lodge No. 499 will hold their memorial, Sunday June 25th at lodge room. All members and families are invited. Hon. Geo. H. Hamilton will deliver the memorial address.

Birth Announcement.
Mr. and Mrs. William Schultz of Fulton avenue announce the birth of a daughter, June 21.

Matinee Races.
The usual racing program of the Newark Driving Club will be given Thursday afternoon providing the weather permits. The track at Moundbuilders park is in excellent shape and some very good contests are promised. A special invitation is extended to the public to be present.

Burning Diamonds.
You often hear of people with money to burn, but so far none has ever attempted to burn his diamonds. The reason why perhaps is because they will burn beautifully. "A great many people imagine that diamonds are indestructible," said a jeweler, who was placing a load of gems in his safe for the night, "but as a matter of fact, a fire of diamonds would be the blindest, prettiest thing in the world. Diamonds are nothing but coal carbon. Put a handful of diamonds on a plate and set a light to them. They will burn with a hard, gemlike flame till nothing is left. There will be no smoke, no soot, and at the end the plate will be as clear as though just washed. Not the slightest particle, even of ash, will remain."—Pittsburgh Press.

A Lost Book.
Among the Somalis of Africa there is a legend that when God first made them, a man and a woman, he wrote down in a book the law they were to follow. They were promised that as long as they carefully preserved this book they should continue great and powerful, but if they lost it their greatness would depart from them. One day the book was carelessly left lying outside a tent, where a bullock found and devoured it. From that fatal day their decadence set in, and to the present time whenever an ox dies of disease or is killed his entrails are religiously examined to see if any trace of the book can be found. If found they believe they should recover their lost power.

The Two Versions.
The editor was trying to placate an indignant statesman.
"All we said about you in the paper, Mr. Krakjack," he assured him, "was that you seemed to have an inadequate sense of proportion."
"Not by a blundered sight!" roared the caller. "What you said about me was that I seemed to have an inadequate proportion of sense!"—Chicago Tribune.

Kansas as a Territory.
When Kansas was first organized as a territory in 1854 its area included part of the present state of Colorado, extending as far west as the crest of the Rocky mountains. Denver, Leadville, Pueblo and Colorado Springs are now located on former Kansas soil.

One of Her Necessities.
Maud—Jack said when he proposed that he could give me only the necessities of life. Ethel—And what did you say? Maud—I told him that one of the necessities of my life was a husband who could supply me with the luxuries.—Exchange.

Olives and Bread.
Found for pound, ripe olives, so far as total value of heat unit is concerned, contain almost as much food value as bread, and in the case of very large olives the value may be increased to approximately the same as that of bread.

MILLINERY SALE

All Trimmed and Untrimmed Hats will be closed out at the lowest possible prices. (Commence tomorrow. Many are fresh new sample hats. Clouse & Schauweker, 42 Hudson avenue. 6-19d3t

Read The Advocate Wants tonight.

Ingersoll's Eloquence.
In his book, "Notes of a Busy Life," Joseph Benson Fomker, writing of the Republican national convention of 1870, says: "The intellectual feature was the famous speech of Robert G. Ingersoll nominating Mr. Blaine. I have many times seen popular orators arouse great enthusiasm, but I have never seen before or since anything equal to the effect of his eloquent and telling sentences. Some one preceding him had said to make sure of the election we must nominate a man acceptable to Massachusetts. This nettled Ingersoll. He rebuked it in his first sentences, saying if any man who had been mentioned at that convention as a possible candidate should be nominated and could not carry that state by 75,000 majority, Massachusetts should tear down Bunker Hill monument and sell Faneuil Hall for Democratic headquarters. His speech throughout fairly bristled with sharp, jagged points and smashing, bludgeon-like blows that thrilled his audience, aroused their enthusiasm and brought forth round after round of applause, and the climax was reached when he likened Blaine to a plumed knight with shining lance smiling traitors in congress full in the face."

Some Exercise.
Walking is the best exercise. Do some of it every day. Next to walking comes bowling. You can't throw a bowling ball without stooping clear to the floor, and every stoop stimulates the liver and exercises the intestines. Fifty per cent of the sickness in the world would be eliminated if everybody bowled. Walk or bowl every day. And at night lie flat on your back and raise your legs above your head slowly as many times as you can without fatigue. Then, anchoring your toes under a weight of some sort, raise and lower the body. These two exercises repeated fifteen or twenty times night and morning will do a lot for you. And you'll be surprised to find how quickly you develop endurance. Start with five times and increase each day or two until you reach twenty.—Woman's Home Companion.

Something to Step On.
We don't get very high in this world unless we have something to step on. That is why we put risers in stairs and rounds in ladders.

When we were boys if we could stick our toenails into a crevice in the bark of a tree, be it ever so shallow, we could shin up to the top all right. When we got to the lowest branch we were all right. After that we could pull ourselves up easier. But it did seem a long way to the lower limbs sometimes.

That is the story of all life—getting the feet on something and then springing up.

Life is fine, or it is a tragedy, just according to whether we see the meaning of the experiences which come to us and use them to climb up by.—Farm Life.

Her Lost Chance.
Mrs. B.—I wonder why Miss Singleton refused the curate when he proposed to her? Mrs. D.—All a mistake, my dear, a sad mistake. You know, she has grown a little deaf, and she did not suspect he was at all "gone" on her. She actually thought he was asking her to subscribe to the new organ fund, so she told him she was sorry, but she had promised all her money in another direction. Mrs. B.—Then what happened? Mrs. D.—The curate felt himself insulted and departed in a dudgeon, and she's lost the only chance she ever had.—London Telegraph.

Sandy Was Willing.
An old farmer and his wife were paying a visit to an exhibition in Glasgow and were deeply interested in the wonders which they saw. Overcome at the sights, the old woman dropped into a chair and exclaimed:
"Oh, Sandy, this is just splendid! I could sit here all day." "Aweel," said the farmer, "jist sit still, Jeanie, wumman. I'll no grudge the shilling."

Boots in Russia.
All Russians have a weakness for handsome footwear, and the result is that there are more pairs of showy boots worn in the czar's empire than anywhere else on earth. This preference extends to the women as well as to the men.

Pleased.
"You may say what you like about that new play of mine, but you've got to admit that it sends the audience away in good humor."
"That's very true. Most of them seemed to be glad it was over."—Pittsburgh Press.

Freshly Defined.
"What's the honeymoon, pa?"
"The honeymoon, my son, is the only period in a man's life during which he considers it funny to come home and find that his dear little wife hasn't dinner ready on time."—Boston Transcript.

Preposterous!
Officer—Why do you think he wouldn't make a good corporal? Sergeant (indicating sentry)—I'm a corporal! Lor' lumme! Why, 'is name's Clarence!—London Punch.

Nearly Empty.
Theodosia—What do you think of my friend? Theodosia—The only thing he had in his head was a cigarette, and that was going out.—Princeton Tiger.

He is no wise man that will quit a certainty for an uncertainty.—Samuel Johnson.

Priests in the Greek Church have their heads shaved quite bald.

Tennyson's Birds.
Of all the poets Tennyson was the most exact in his rendering of the songs or calls of birds. A young lady was present when he was reading "Maud." When he came to the passage which says, "Birds in the high hall garden cry, 'Maud, Maud, Maud!'" he suddenly ceased reading and asked her abruptly what the birds were.

She blushed and hesitated and then said:
"Nightingales, I suppose."

The poet turned away with the one word "Rooks!"

He always made the sound right. What could be better than "the moan of doves" and "Whit, whit, whit," chirruped the nightingale?

Then, luncets, robins and thrushes "tripe" in his pages, the woodpecker "laughs" and "mocks," the lark and the plover "whistle," the jay "scatches," the parrot "screams," the peacock "squalis," the blackbird "warbles," the ocean fowl "shriek," and the eagle "yelps." He may well ask in one of the daintiest of his lullabies, "What does little birdie say?" He knows, and he lets his readers know too.—London Answers.

The Missing Chapter.
The new pastor of a certain country parish is likely to lose the confidence of his flock unless he changes his ways. During his sermon one Sunday morning not long back he stopped abruptly and asked:
"How many of those here are diligent students of their Bible?"

Fifty hands went up.
"Good!" said the pastor. "Now, how many of you have read the second chapter of Jude?"

Twenty-five hands went up.
A wan smile overspread the divine's face.

"That's also good, but when you go home read that chapter again, and you will doubtless learn something to your interest."

Reader, the point of this story lies in the fact that the book of Jude consists of one chapter only.

Nipped.
"But," asked the defaulter, who was arranging for transportation to Mexico, "haven't you something special for tourists?"

"No," replied the ticket agent.
"Parlor me, but I have," chimed in the detective, appearing at that moment with a pair of steel bracelets. "Here's something special for two wrists. Suppose you try 'em."—Exchange.

A Pearl Superstition.
The ancient inhabitants of India had a very pretty superstition concerning the origin of pearls. They believed that at certain seasons Buddha showed dewdrops upon the world, which the oyster, floating on the waters to breathe, received and held until they hardened and became pearls.

Pleasure and Happiness.
There are many pleasures found in the search for happiness, but there is little happiness for him who seeks pleasure. Pleasure is what you feel when your neighbors come to spend the evening. Happiness is what you feel when they go.—Chicago News.

Some Time Ago.
Stodious Boy—Father, did you ever study arithmetic? Father (indignant)—Of course I studied arithmetic. Stodious Boy—Well, I can't find the cube root of— Father (hastily)—It's a long while since I studied it.—Exchange.

Why He Roasted Them.
Highspeed—Why are you always roasting the joy riders?
Drysdale—Well, because they are always running down somebody or other.—Springfield Union.

Witty Retort.
Jerry—I have traced my ancestry back to an Irish king. Pat—Sure that's aisy. What chance has a dead man to defend himself?—Liverpool Mercury.

LEGAL NOTICE.
Sealed bids will be received by the Board of Education of Newark at their office in the High School Building, until 12 o'clock noon, July 18th, 1916, for furnishing coal for the year 1916-17. Bids must be accompanied by a certified check in the sum of \$100.00 on some solvent bank as a guarantee that if the bid is accepted a contract will be entered into and its performance properly secured. Should any bid be rejected, such a contract will not be returned to the bidder, and should any bid be accepted such check will be returned upon the proper execution and securing of the contract.

The right is reserved to reject any and all bids.
By order of the Board,
HEN MONTGOMERY, Clerk.

NOTICE TO BIDDERS.
Notice is hereby given that bids for the printing of called for by the Newark Board of Education, will be received at the office of the Board of Education in the High School Building, until 12 o'clock noon, July 18th, 1916. All bids must be accompanied by a bond and the Board reserves the right to reject any or all bids.
By order of the Board,
DAVID DICK, Clerk.

LEGAL NOTICE.
In pursuance of an alias order of sale to me directed from the Probate Court of Licking County, Ohio, I will offer for sale at public auction at the South Steps of the Court House, Newark, Licking County, Ohio,
Saturday July 21st, 1916, at 10:30 a. m. the following described real estate situated in the State of Ohio in the County of Licking and in the City of Newark and bounded and described as follows: Being a part of lot 148 in Wm. Shields Addition to the City of Newark, Ohio, and commencing at a point 645 feet north of the north line of Locust Street in said City, and the east line of said Lot 148 to the east line of said Lot; thence north 31 feet; thence west parallel with the north line of said Lot 148 to the east line of Jackson Street; thence south on the east line of Jackson Street to the place of beginning. Being House Numbered 152 on said Jackson Street.
Appraised at \$700.
Terms of sale—One-third cash on day of sale, one-third in one year and one-third in two years from the day of sale or for all cash at the option of the purchaser.
Deferred payments to be secured by mortgage on the premises.
JURETTA M. MORAN, Administratrix of the Estate of Lewis G. Spillman, deceased.
Robert W. Howard, Plaintiff's Attorney. 6-7-Wed-4t.

FOOTBALL STARS AT INDIANA WILL GO WITH MILITIA

(Associated Press Telegram)

Bloomington, Ind., June 21.—Prospects for the Indiana university football team next year have been given a severe setback by the mobilizing of the National Guard for service along the Mexican border. Six men, who were reasonably sure of places on the 1916 eleven are members of Co. 1, Indiana National Guard, which was recruited at the university.

KEYNOTE

(Continued from Page 1.)

Daugherty of Columbus and Charles Dick of Akron.

The convention will convene at 3 p. m. today. During the hour previous to the meeting the district delegates will meet.

Discussion of the selection of a permanent chairman continued this morning. It was suggested that Mr. Cole be continued as permanent chairman while others favored Arthur L. Garford of Elyria for the office.

Paraphrasing a familiar scriptural passage, former Congressman Ralph D. Cole of Findlay in heralding the Republican State convention here

HARRY M. DAUGHERTY

Columbus attorney and Ohio Republican leader who would like a seat in Upper House of Congress.

today declared Governor Frank B. Willis has "fought a good fight, has kept the faith and will be re-elected by an overwhelming majority."

Reunion of Republicans and Progressives will insure Republican success, he declared.

Asserting that "in our dealing with Mexico we have been wronged beyond endurance," Mr. Cole vigorously attacked the national administration. In further discussion of national issues, the speaker said "the Republican party is for Americanism," but "if it had not been for the great services rendered to the human family and to free government by the party of Lincoln, we would have Mexicanism instead of Americanism in this country today."

"Americanism, pure and unde-fined," was a dominant strain in the keynote address.

Declarations for military and industrial preparedness, the maintenance and enforcement of respect for absolute neutrality with the warring nations of Europe, the upholding of the Monroe doctrine and the re-establishment of a tariff board were made by Congressman Cole.

The restoration of representative government through the enactment of the Parrot-Whitemore tax law, the repeal of "a civil service law designed to shield a gigantic machine from the wrath of an outraged people," the enactment of the Lloyd loan shark and Cass highway laws and general economy and efficiency in the administration of the state government under Governor Willis were entitlements to a continuance of the party in power claimed by the speaker.

"In 1912 we did not disagree upon primary questions of party faith," said Congressman Cole. "On principles of government and policies of administration we were in practical accord. There was no irrepressible conflict of opinion such as gave birth to the Republican party. We divided on questions of organization, control and leadership. Therefore I contend that these two great factors in American life can be reunited without sacrifice of principle on either side. It was the honest differences of honest men. We had a right to fight, lose and enthrone Democracy. It is our duty now to get together, win and re-instate Republicanism."

"The Republican administration in Ohio has made good. It redeemed the pledges embodied in its platform. Its promises have been written into law and given effective administration. The legislature has been true to its mission, responsive to its duty."

"The primary pledge of 1914 was a demand for a restoration of representative government."

"We promised in our platform the enforcement of strict economy and greater efficiency in the administration of the various departments of government. The record of the administration in this respect is gratifying beyond expression."

The effecting of great economies in the administration of their offices by Secretary of State Charles Q. Hildobrant, Attorney General Edward C. Turner and State Treasurer A. W. Archer was claimed by Mr. Cole.

"In summary, every substantial promise embodied in the platform of 1914 has been redeemed. If the Republican party is retained in power in the state, these policies will be maintained in the coming administration."

In reference to national issues, Congressman Cole said:

"The national convention laid the foundation of a sweeping triumph in November. It gave free and untrammelled expression to the voice of America. There was no machine at Chicago, no czar to give orders; no dictator of platforms; no self-made candidates."

"The purpose of the present campaign is to re-instate the Republican party in power; thereby to

insure sound economic and fiscal policies; to re-establish the American system of protection to labor and industry; to remake prosperity, not sectional but universal, not temporary, but permanent; not founded on the gloom of war, but the sunshine of peace; and to restore the lost prestige of the Republic among the nations of the world."

The St. Louis platform, written by Wilson, is most eloquent in praise of himself and promise to the people. The Democratic platform is the Democratic record. They promised to reduce the cost of living and simply reduced the power to purchase a living; they promised sufficient revenue to administer the government and turned a surplus of \$75,000,000 into a deficit of \$100,000,000. They promised free trade to American commerce through the Panama canal. Instead they levied tribute and sacrificed our sovereignty over American soil. They promised independence to the Philippine Islands and now withhold it. They promised a tariff board, having destroyed the one we had. Having impeded the navy and reduced the army, they propose military preparedness."

Relative to the Mexican situation, Mr. Cole said: "We must maintain a firm, unflinching stand for right and justice in our relations with Mexico."

Practically all the Republican candidates for state offices had headquarters at one of the local hotels. About noon a delegation of Dayton Herick rooters headed by a band and a detachment of old soldiers arrived. They came to Columbus in a special train, hunted up Former Governor Herick and presented him with an American flag. Another delegation of 500 Herick boosters from Cleveland also arrived about noon. The former governor, who is occupying the suite of hotel rooms for so long occupied by William McKinley, addressed the Dayton delegation.

The various district delegations were called together at two o'clock to select members of the credentials, resolutions, permanent organization and rules committees and to select presidential electors. The various convention committees will meet tonight at 7:30 o'clock.

The convention proper was called to order at 8 o'clock by William L. Parmenter, chairman of the state central committee. Temporary Chairman Ralph D. Cole was introduced and began his keynote speech. Rev. R. Havighurst pronounced the invocation.

A movement was started this afternoon to have former Senator Theodore E. Burton selected as permanent chairman of the convention. Friends of former Senator Charles Dick announced that Mr. Dick may withdraw his candidacy for the senate in favor of former Governor Herick.

Republicans active in the candidacy of Mr. Dick for the senatorial nomination hearing that his withdrawal in favor of former Governor Herick was being rumored made positive denial that such withdrawal would be made by the former senator.

WELSH HILLS

Stella, the youngest daughter of Mr. and Mrs. William Pittsford, who was a graduate from Granville High school in the class of 1915, and taught school near Union Station during the past year, was married to Mr. Jess Morrissett, living near Clay Lick, on Thursday evening, June 15th. While Miss Pittsford will be greatly missed by her many friends here, we wish the young couple happiness and prosperity in their future home.

Mr. D. E. Williams of Columbus, and two nieces, Mrs. Edith Rhu of Indiana, and Miss Marjorie Williams of Springfield, attended commencement in Granville Wednesday, and on Thursday they came to this place in the former's auto, and called on a number of friends and relatives. Mrs. Rhu will be better known to her friends as Miss Edith Williams.

At the Grange meeting last Thursday evening, two members were initiated into the third degree and four candidates took the fourth degree. Refreshments, consisting of strawberries and cake, were served.

Mrs. William Hankinson, Mrs. Thomas Evans and Mrs. Thomas Phillips and son Samuel spent last Tuesday afternoon at the home of Mrs. Evan Price.

Miss Elizabeth Landacre of Columbus is the guest of Miss Betty Price this week.

Mrs. Jack Davis and son Dante visited from Saturday until Monday with the former's sister, Miss Maggie Evans, and other friends near Alexandria.

Master Harold Osburn, who has been quite sick for several days, is better.

Mr. George Hottinger, who has been working at the rubber plant at Akron, O., for several months, came to the home of his parents last week quite ill. He is no better.

Mrs. Evan Price and Mrs. Walter Packham and son Pierce spent last Thursday afternoon with Mrs. Albert Hankinson.

Mr. Jacob Frederick, while still in a weak condition, was able to be wheeled out of doors Sunday.

Mrs. Archie Hankinson spent a few days last week with her aunt, Mrs. Rouben Tyler, near Alexandria.

Mr. and Mrs. Lewis Hottinger of Newark visited the former's parents here from Saturday until Monday.

Mrs. Ida Butcher and son Wilford of Clay Lick and Miss Ruth Davis of Newark attended church here last Sunday and were entertained at the home of Miss Martha Price and others, after church.

Mrs. and Mrs. Evan Price spent Sunday with the latter's sister, Mrs. John Vogelmeier of Newark.

Mrs. F. C. Caldwell and daughter Anna of Columbus are guests of Mrs. Homer Price this week.

Mr. Hayden could not fill his appointment here last Sunday, so the pulpit was occupied by Mr. Shoels. Mr. Hayden expects to be here next Sunday.

Miss Ina Blison has been employed as teacher for the Welsh Hills school for next year.

Miss Clara Pittsford is attending summer school in Granville.

EAGLES WILL ELECT

(Continued from Page 1.)

is said that a number of cities will make a proposition.

This afternoon at 3 o'clock the automobile parade will take place. A prize of \$50 will be given for the best decorated car and \$25 for the second best. There are a number of entries and the contest promises to be keen.

There will be a public exhibition of drill teams this evening at 7:30 o'clock and a special exhibition by the Tiffin team, acknowledged to be one of the finest in the United States. This will be followed by the Mardi Gras parade and festivities. The Buckeye band will participate and everybody is invited to join in and assist in the festivities. Prizes will be awarded the best dressed man and lady and the most comical costumes. There are several dozen costumes which can be secured at the convention headquarters in South Second street.

A reception at the Eagles Home and Music Hall follows the evening's festivities.

Tomorrow morning will be given over principally to the selection of a site for the Eagle state home and the installation of the newly elected state officers.

Thursday afternoon at 1:30 o'clock the grand street parade will start. Marching clubs are expected from over the state and there will be a number of bands, among which will be the famous Seventh Regiment band of forty pieces from Columbus, Zanesville, Springfield, Sandusky and a number of others. In the evening at 7 o'clock there will be a public exhibition of drill teams for two large silver loving cups.

Zanesville Golf Team Comes Here For Thursday Game

The Zanesville golf team will come to Newark Thursday afternoon for a match game with the Country club golf team starting Thursday afternoon at 2:00 o'clock. All members of the Newark team are requested to be on hand before that hour to help defeat the contingent from the Clay City.

The outlet pipe of a new bubble fountain can be raised so a tall person will not have to lean over to get a drink of water.
